## The American's Creed

I BELIEVE in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and to defend it against all enemies.

## House Votes Antisegregation Measure Into School Aid Bill

WASHINGTON (AP) — Climaxing a round of rough and ready debate over racial segregation, the House late Tuesday tentatively voted an antisegregation rider into a 1½ billion dollar federal school construction bill.

The unrecorded 164-116 vote in favor of the amendment sponsored by Rep. Powell (D-NY) still is subject, however, to possible reversal on a final rollcall vote. This vote is expected Thursday or Friday when the House completes action on the measure.

## Hungary Cuts Off Moscow

... Budapest Radio Says

PARIS (INS) — Radio Budapest Tuesday night attacked "servile imitation of certain Soviet institutions" and declared that henceforth Red Hungary "will be independent and inspired by the traditions of the country."

However, Agence France Presse quoted the Budapest broadcast as saying such policy will continue to be based on "Marxism-Leninism."

The Budapest announcement, as monitored by AFP, said: "Servile imitation of certain Soviet institutions have caused very serious prejudices, not only in internal policy, but even more to the economic development of our country."

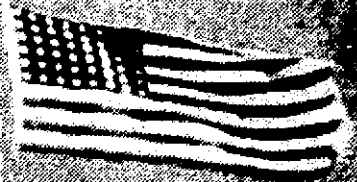

The broadcast followed a wave of recent reports that anti-Communist opposition has been mounting in Hungary.

Hungarian officials have been warning of "dissatisfied elements" within the Communist party, particularly since the anti-Red uprising in the Polish city of Poznan. And only Tuesday the Hungarian Communist newspaper Szabad Nep said resistance to the Communist party is increasing among Hungarian youths.

Ever since Marshal Tito concluded his visit to Moscow two weeks ago, there have been increasing reports that there would be a relaxing of Kremlin controls on the satellites.

## 50,000 Signers Ask Ton-Mile

An armored truck drove up to the State Capitol Tuesday bearing petitions with nearly 50,000 signatures asking that the voters be allowed to vote on a proposed ton-mile truck tax. For Ray Campbell's story on the petition filing and the opposition which developed immediately, see Page 2.

# More Rain Expected For Bankful Streams

## Salt Lowland Gets Overflow

Cresting Blue Sends Water Over Parks, Drives In Beatrice Area

Rains that brought flood waters into creeks in southeastern Nebraska continued Tuesday to rush into already-swollen streams and more showers were predicted for Wednesday. However, damage was limited to lowlands.

At Lincoln water from Salt Creek did not rise enough to cause any worry, although some lowland area south of town had been inundated earlier.

Flood waters from a small creek four miles south of the State Penitentiary, which had partially covered U. S. Highway 77 Tuesday afternoon, had receded by late Tuesday night and none of the highway was covered.

At Beatrice and Barneston, the Blue River had crested at 19.9 feet. At Beatrice, lowlying parks and Memorial Drive were flooded. Flood stage there is 16 feet. Several bridges in northwest Gage County were washed out.

Chautauqua Park and part of Riverside Park were closed at Beatrice and a band concert scheduled for Tuesday night was postponed.

The Board of Public Works was called out to free a driftwood jam at the Court Street Bridge, but no damage resulted.

At Wynome, 16 miles south of Beatrice, Boyd Rist, president of the Wynome National Bank, said the Blue River was falling, with the crest having reached Wynome.

Rist said the Wynome-Liberty state highway was under several feet of water southeast of Wynome, but that the city itself was escaping serious damage. Tributaries to the Blue from the west were not flooding.

"We will be all right," Rist said "if upstream rains slacken. The water is pretty high, but moving out rapidly."

"Since 1940 the Blue has delivered one or more major floods down its lower watershed every year except 1955. That was a drought year. Numerous earlier floods have exceeded this one in intensity," Rist said.

### Lowland Crop Damage

Unharvested wheat (about 40 per cent of the crop in northeast Gage County) suffered damage in the lowlands.

Both Wilber and DeWitt on the Big Blue reported falling water after heavy early-week rains at Crete and other points upstream. But DeWitt reported Turkey Creek, a major watershed paralleling the Blue on the west and joining it a short distance south of DeWitt, was still rising Tuesday.

An estimated .75 of an inch of rain fell at DeWitt Tuesday morning giving the town a total of 3.90 for a 36-hour period.

The Nemaha River and its tributaries reached major flood levels late Monday, cresting at Adams in the early evening. As the crest rolled on downstream toward Adams, the river, though still out of its banks at Adams, was rapidly receding.

Portions of the state's recently-rebuilt Highway 41 north and west of Adams also sustained damage. State highway engineers visited the washed sections Tuesday preparatory to restoring the road.

Four hundred feet of CB&Q track east of Adams was swept away, leaving the region without train service. However, Lincoln-Kansas City traffic was maintained by the Burlington over its alternate line through Beatrice.

### Crew Working

The water had receded sufficiently Tuesday to permit a Burlington work train and repair crews to begin reconstruction.

At Roca south of Lincoln, Salt Creek crested at 21 feet, causing some lowland flooding. Flood stage is about 22 feet.

The State Safety Patrol headquarters in Lincoln said Tuesday it had no reports of primary roads cut off from traffic by high water and no reports of flood emergencies anywhere.

Additional rains Tuesday morning added an inch to Tecumseh's swollen four-inch reading on Monday and an inch at Panama for a 4.35 inches 36-hour total.

At Endicott, the Little Blue River crested at 9.3 Tuesday morning, slightly more than the flood stage of nine feet. Little flooding was reported.

The Weather Bureau predicted occasional showers and thunderstorms for Wednesday. Temperatures were to be warmer in the southern part of the state, with state highs of 75 to 85 expected.

## Sidney Gets Heavy Rain

SIDNEY, Neb. (AP) — A fourth heavy rain hit Sidney Tuesday night and Lodgepole Creek went out of its banks over the lowlands. But there was no flooding in the city proper.

Over 2 inches of rain fell in the area and Sidney itself got 2.03 inches.

Observers here said the rain Tuesday night marked the fourth downpour in four days of near an inch or better.

There was an unconfirmed report of a tornado sighted between Sidney and Crook, Colo., but no report of any damage received.

Near Mitchell, the heavy rains had forced the Davis Oil Company to abandon an oil well eight and a half miles north of the town. The rains had washed out the flush pits and undermined the rig itself.

## Rainfall Listed

Heavy rains that fell in the southeastern portion of the state Monday and Tuesday drenched Tecumseh and Holland with more than five inches of precipitation. Rainfall totals for Monday and Tuesday include:

Adams	4.50	Lincoln	1.20
Allamore	1.31	Albany	1.12

## Adlai To See State Delegates

IN Omaha Meet

OMAHA (AP)—Adlai Stevenson will be in Omaha Saturday afternoon and will meet with Nebraska delegates and alternates to the democratic national convention. National Committeeman Bernard Boyle said Tuesday.

Announcement of the 1952 presidential candidate's visit was made along with a call to the delegates and alternates to meet here Saturday noon and organize the delegation by election of officers.

Boyle said Stevenson would meet with the delegates after the business session.

Stevenson, who will be making a tour, will arrive in Omaha from Iowa about noon by auto, Boyle said.

Stevenson will leave by United Airlines for Des Moines at 2:40 p.m.

## Today's Chuckle

A stranger was talking to an old-timer in a small Alabama town.

"I don't like the looks of those clouds... look just like some we had back in Texas just before a tornado struck."

"Was it a bad one?" asked the native.

"Bad? How do you figure I come to be in Alabama?"

## STUART TIES LEAGUE RECORD

Rightfielder Dick Stuart equalled the modern Western League home run record Tuesday night with a prodigious blast against Topeka, his 44th of the season.

Stuart lacks only five to equal the all-time Western League record of 49. For the story of Stuart's homer and the Chiefs' 7-4 victory over Topeka, see page 17.

—Defense Production To Continue—

## Steel Freeze Is Readied

### Unemployment Is Mounting

By JOHN MOODY  
PITTSBURGH (AP) — Unemployment in allied industries climbed past 46,000 Tuesday as effects of the three-day nationwide steel strike crept across America, and the government drew up an order to freeze temporarily some steel products for defense needs.

A few small companies suspended production for the duration of the strike of 650,000 United Steelworkers members against 90 per cent of the basic steel industry. Other firms cut work schedules.

Two small steel companies, continuing to operate, boosted the price of its steel \$3 to \$9 a ton in anticipation of added labor costs later on.

### No Sign of Peace

There was no sign of an early settlement. Negotiators for the union and industry appeared to be marking time until after the July Fourth holiday.

The Federal Mediations Service has arranged separate meetings with union and industry negotiators for Thursday in an attempt to revive bargaining. Negotiations were broke off six hours before the strike started Saturday at midnight.

Economists said the Sunday start of the strike and the mid-week holiday will dull the early impact of the steel industry shutdown on U. S. business in general.

### Railroads First

The railroads took the first cuts. They already have posted furlough notices for nearly 30,000. Freight shipments of finished steel and its raw materials are a major portion of railroad business.

LaCade Christy Co., producer of refractory materials for the steel industry, closed six plants in five states, idling 1,400 workers. The shutdown is for the duration of the strike.

Fritz-Moon Tube Co. said it was unable to get steel for its pipe production and closed its plant at Butler, Pa., where 250 are employed.

Harbison - Walker Refractories Co., with 33 plants and as many more clay mines across the nation, reduced work schedules by one day this week. The company said 3 and 4-day schedules are planned for next week.

A spokesman said if the strike continues beyond next week many of the 6,200 employees "certainly would be laid off."

Unemployment also hit the inland maritime ranks as Great Lakes ore boats and many river barges were tied up.

### The Weather

NEBRASKA: Cloudy through Thursday. Occasional showers and thunderstorms Wednesday. Warmer south Wednesday and over most of state Thursday. Highs Wednesday 75-85.

KANSAS: Partly cloudy through Thursday. With occasional showers and thunderstorms Wednesday and north Wednesday. Highs Wednesday 75-85. Low 60s north and 70s south.

### Order Effective On Friday

WASHINGTON (AP) — The government has decided to place a temporary freeze order on selective steel products in warehouses needed for defense production — effective Friday.

Officials confirmed Tuesday such an order has been prepared and is to be issued Thursday and become effective Friday.

The order is designed to freeze critical steel items for defense producers, principally contractors of the Defense Department and Atomic Energy Commission because of the nationwide steel strike.

The freeze is expected to last only a short period, possibly for no longer than two weeks. During this period defense contractors could acquire or put under order such items as stainless steel tubing, carbon plate and alloy bar in the quantities they might need for the foreseeable future.

This will be aimed at assuring that necessary defense construction and production go on as long as possible with steel stocks on hand and that nondefense users do not acquire defense needed supplies.

William C. Truppper, director of industry mobilization for the Commerce Department's Business and Defense Services Administration, told a reporter:

"We want to hold certain steel items temporarily from nondefense users so the defense users can get what they need."

Special exemptions are to be allowed to nondefense users to get small quantities of the steel items despite the freeze if they can demonstrate urgency.

## Monroney Wins Race In Oklahoma

OKLAHOMA CITY (AP)—An hour and a half after the polls closed in Oklahoma's primary election, Sen. Mike Monroney was conceded the Democratic nomination to succeed himself in the U. S. Senate Tuesday night.

Monroney will seek a second term in the November general election against Republican Douglas McKee, who swept to victory on the GOP ticket with no trouble.

Monroney had little opposition in the primary and took a commanding early lead with scattered returns from all sections and continued to gain.

### Leading

With 1,214 of the 3,213 precincts reporting, Monroney was leading with 75,519 votes. Next was H. O. Sengco, Guthrie, brother of retiring Oklahoma Democratic national committeeman W. C. Donenges, who had 17,737. Monroney had more than twice the combined votes of his three opponents.

On the Republican ticket, McKee amassed 9,803 votes with 912 of 3,213 precincts in Ernest Albright, Shawnee, was second with 2,468.

## BOND CAMPAIGN REPORTS EXPECTED TO BE FILED

Reports were expected to be filed shortly showing contributions and expenditures by groups and organizations which conducted campaigns in connection with the June 26 special election in Lincoln.

Such financial reports are required by law of all political committees, according to Deputy Election Commissioner Pat Boyle. In addition to activity in behalf of a candidate, the law further defines a political committee as:

"Two or more persons... associated for the purpose... of directing the raising, collection or disbursement of money used... in support of, or opposition to, any measure or proposition submitted to popular vote."

This clearly includes several organizations which conducted campaigns either for or against the June 26 propositions, Boyle said.

Dick Joyce, chairman of the Lincoln Civic Progress Association which campaigned in favor of the propositions, said a report would be made by his organization if it is required by law. The association, he said, "has nothing to hide."

## IT'S NOTHING, JUST BULLET IN THE HEAD

TUCSON, Ariz. (AP) Roger Stafford, 13, pulled a bullet out of his head with a pair of scissors after he had accidentally shot himself with his father's .22 calibre revolver.

"I felt something knock against my head," the boy said. "I ran into the bathroom and looked in the mirror. The tip of this bullet was sticking out of my head above my right eye."

"I got scissors and poked the bullet out. Then I messed around the house for a half hour until my dad came home."

The father took him to a doctor who dressed the wound and sent him home.

## Protest On Valuation Is Dropped

New Car Dealers Withdraw Objection

By ROY CAMPBELL  
Star Staff Writer

Written protests on proposed new car valuations for 1957 have been dropped by the Nebraska New Car Dealers Assn. and the Omaha New Car Dealers Assn.

A letter noting the dropping of the protests was received Tuesday by State Tax Commissioner Fred Herrington.

In their letter, the new car associations said the protests were "filed in an honest endeavor to seek a true valuation and to prevent discrimination in the assessment of motor vehicles as compared to other types of personal property."

The protests were filed with the tax commissioner following action by the Board of Equalization setting up new taxing schedules for new vehicles in production next year.

### Said 'Impossible'

Herrington said at the time the job of assessing cars not yet in production was an "impossible problem," but added any changes would have to come in the form of statute revisions.

The formula for assessing the cars, as adopted by the Equalization Board, would be one of adding 50 per cent of the factory price to the 1956 models. This figure would be the factory list price and would be cut by 30 per cent for immediate depreciation.

The 70 per cent figure would be cut by 50 per cent, according to state law, as the assessed valuation.

In dropping its protests, the car dealers proclaimed they still thought the schedule of assessments was 20 per cent higher than the actual selling price.

### To 'Co-operate'

They said they were withdrawing their protests to expedite the basic value law and to "co-operate with state government."

"We recognize the state tax problem," the letter said, "and the need for quick setting of certain and definite assessment schedules."

"It is our feeling this problem cannot be solved by further contest but rather by our cooperation at this time."

The letter was signed by Dale L. Payne, manager of the New Car Dealers Assn.

NEBRASKA: Cloudy through Thursday. Occasional showers and in thunderstorms Wednesday. Warmer south Wednesday and over most of state Thursday. Highs Wednesday 75-85.

## House Votes Antisegregation Measure Into School Aid Bill

WASHINGTON (AP)—Clashing a round of rough and ready debate over racial segregation, the House late Tuesday tentatively voted an antisegregation rider into a 1½ billion dollar federal school construction bill.

The unrecorded 164-116 vote in favor of the amendment sponsored by Rep. Powell (D-NY) still is subject, however, to possible reversal on a final rollcall vote. This vote is expected Thursday or Friday when the House completes action on the measure.

Action on the Powell amendment, preceded by bitter and personal exchanges during debate, overshadowed other developments as the school aid measure was opened to revision.

Chief among them was a compromise reached by the bill's sponsors setting on a five-year 1½ billion dollar program of federal rate of 300 million a year.

## Hungary Cuts Off Moscow

Budapest Radio Says

PARIS (INS)—Radio Budapest Tuesday night attacked "servile imitation of certain Soviet institutions" and declared that henceforth Red Hungary "will be independent and inspired by the traditions of the country."

However, Agence France Presse quoted the Budapest broadcast as saying such policy will continue to be based on "Marxism-Leninism."

The Budapest announcement, as monitored by AFP, said:

"Servile imitation of certain Soviet institutions have caused very serious prejudices, not only in internal policy, but even more in the economic development of our country."

The broadcast followed a wave of recent reports that anti-Communist opposition has been mounting in Hungary.

Hungarian officials have been warning of "dissatisfied elements" within the Communist party, particularly since the anti-Red uprising in the Polish city of Poznan. And only Tuesday the Hungarian Communist newspaper Szabad Nep said resistance to the Communist party is increasing among Hungarian youths.

Ever since Marshal Tito concluded his visit to Moscow two weeks ago, there have been increasing reports that there would be a relaxing of Kremlin controls on the satellites.

## 50,000 Signers Ask Ton-Mile

An armored truck drove up to the State Capitol Tuesday bearing petitions with nearly 50,000 signatures asking that the voters be allowed to vote on a proposed ton-mile truck tax. For Roy Campbell's story on the petition filing and the opposition which developed immediately, see Page 2.

# More Rain Expected For Bankful Streams

## Salt Lowland Gets Overflow

Cresting Blue Sends Water Over Parks, Drives In Beatrice Area

Rains that brought flood waters into creeks in southeastern Nebraska continued Tuesday to rush into already-swollen streams and more showers were predicted for Wednesday. However, damage was limited to lowlands.

At Lincoln water from Salt Creek did not rise enough to cause any worry, although some lowland area south of town had been inundated earlier.

Flood waters from a small creek four miles south of the State Penitentiary, which had partially covered U. S. Highway 77 Tuesday afternoon, had receded by late Tuesday night and none of the highway was covered.

At Beatrice and Barneston, the Blue River had crested at 19.9 feet. At Beatrice, lowlying parks and Memorial Drive were flooded. Flood stage there is 16 feet. Several bridges in northwest Gage County were washed out.

At Beatrice and Barneston, the Blue River had crested at 19.9 feet. At Beatrice, lowlying parks and Memorial Drive were flooded. Flood stage there is 16 feet. Several bridges in northwest Gage County were washed out.

The Board of Public Works was called out to free a driftwood jam at the Court Street Bridge, but no damage resulted.

At Wymore, 16 miles south of Beatrice, Boyd Rist, president of the Wymore National Bank, said the Blue River was falling, with the crest having reached Wymore.

Rist said the Wymore-Liberty state highway was under several feet of water southeast of Wymore, but that the city itself was escaping serious damage. Tributaries to the Blue from the west were not flooding.

Portions of the state's recently-rebuilt Highway 41 north and west of Adams also sustained damage. State highway engineers visited the washed sections Tuesday preparatory to restoring the road.

Four hundred feet of CB&Q track east of Adams was swept away, leaving the region without train service. However, Lincoln-Kansas City traffic was maintained by the Burlington over its alternate line through Beatrice.

Crew Working

The water had receded sufficiently Tuesday to permit a Burlington work train and repair crews to begin reconstruction.

At Roca south of Lincoln, Salt Creek crested at 21 feet, causing some lowland flooding. Flood stage is about 22 feet.

The State Safety Patrol headquarters in Lincoln said Tuesday it had no reports of primary roads cut off from traffic by high water and no reports of flood emergencies anywhere.

Additional rains Tuesday morning added an inch to Tecumseh's swollen four-inch reading on Monday and an inch at Panama for a 4.35 inches 36-hour total.

At Endicott, the Little Blue River crested at 9.3 Tuesday morning, slightly more than the flood stage of nine feet. Little flooding was reported.

The Weather Bureau predicted occasional showers and thunderstorms for Wednesday. Temperatures were to be warmer in the southern part of the state, with state highs of 75 to 85 expected.

Today's Chuckle

A stranger was talking to an old-timer in a small Alabama town.

"I don't like the looks of those clouds ... look just like some we had back in Texas just before a tornado struck."

"Was it a bad one?" asked the native.

"Bad? How do you figure I come to be in Alabama?"

## STUART TIES LEAGUE RECORD

Rightfielder Dick Stuart equalled the modern Western League home run record Tuesday night with a prodigious blast against Topeka, his 44th of the season.

Stuart lacks only five to equal the all-time Western League record of 49. For the story of Stuart's homer and the Chiefs' 7-4 victory over Topeka, see page 17.

—Defense Production To Continue—

## Steel Freeze Is Readied

Unemployment Is Mounting

By JOHN MOODY  
PITTSBURGH (AP)—Unemployment in allied industries climbed past 46,000 Tuesday as effects of the three-day nationwide steel strike crept across America, and the government drew up an order to freeze temporarily some steel products for defense needs.

A few small companies suspended production for the duration of the strike of 650,000 United Steelworkers members against 90 per cent of the basic steel industry. Other firms cut work schedules.

Two small steel companies, continuing to operate, boosted the price of its steel \$8 to \$9 a ton in anticipation of added labor costs later on.

No Sign of Peace

There was no sign of an early settlement. Negotiators for the union and industry appeared to be marking time until after the July Fourth holiday.

The Federal Mediations Service has arranged separate meetings with union and industry negotiators for Thursday in an attempt to revive bargaining. Negotiations were broke off six hours before the strike started Saturday at midnight.

Economists said the Sunday start of the strike and the mid-week holiday will dull the early impact of the steel industry shutdown on U. S. business in general.

Railroads took the first cuts. They already have posted furlough notices for nearly 30,000. Freight shipments of finished steel and its raw materials are a major portion of railroad business.

LaCade Christy Co., producer of refractory materials for the steel industry, closed six plants in five states, idling 1,400 workers. The shutdown is for the duration of the strike.

Fretz-Moon Tube Co. said it was unable to get steel for its pipe production and closed its plant at Butler, Pa., where 250 are employed.

Harbison-Walker Refractories Co., with 33 plants and as many more clay mines across the nation, reduced work schedules by one day this week. The company said it had no day schedules are planned for next week.

A spokesman said if the strike continues beyond next week many of the 6,200 employees "certainly would be laid off."

Unemployment also hit the inland maritime ranks as Great Lakes ore boats and many river barges were tied up.

The Weather

# County Waits Out Joint Consolidation Meeting

## Commissioners Skeptical Of City Offer For Jail Use

By VIRGIL FALLOON  
Star Staff Writer

The Lancaster County Commissioners were awaiting Tuesday with some skepticism for Mayor Clark Jeary to set up a meeting of the City Council with the County Board to work out possible city and county consolidations.

The city had offered to combine the county jail with the city's facilities and the county countered with an offer that the city tax assessing office be consolidated with the county's.

"We want to find out whether they (the city council) are serious or not," County Board Chairman Russell Brehm told his colleagues in urging the county await Mayor Jeary's reply to Brehm's letter.

Last Monday Brehm had invited the City Council to meet at its "earliest convenience" with the County Board to discuss "immediate consolidation" of the jails and of the tax assessing offices.

Commissioners Del Lienemann and Chris Kuhner questioned if the city jail was able to accommodate county prisoners in a consolidation move.

"While we were remodeling the county jail three years ago, the city was able to house county prisoners only on a temporary basis," Kuhner said.

"Now suddenly, the city has room for the county despite Lincoln's growth the past three years."

Lienemann said the county "wants some facts and figures from the city before we go along with the consolidation of the jails. We want to know if they are willing and able to do it."

"We had the facts and figures that the city and county tax assessing offices could be combined before the county's proposal was made," he added.

Little Work  
Lienemann noted that the county has had since January a committee ready to work with the city on tax assessing and collecting consolidations, but little has been done.

"Consolidation activities were apparently curtailed until after the special election (June 26)," he added.

In his letter to Jeary, Brehm had noted that the special election "certainly indicated the people of this county are tax conscious and that they want savings of tax dollars by local governments as soon as possible."

In proposing the city's willingness to combine the jails, Jeary had noted the long-standing criticism of the county jail, which has been condemned for 30 years by the federal government for its prisoners.

Brehm had pointed out a citizens study committee reported \$40,000 savings annually were possible for the city in the immediate consolidation of assessing offices and expressed "hope" that the tax collecting offices could be merged with proper charter amendments and state law amendments by 1957.

Jeary said Brehm's letter was "very fine and proper" and that he would attempt to arrange a meeting Thursday with the county board chairman. The mayor said he felt it was not yet time for a joint meeting of the full Council and County Board.

## Justice Douglas Is Hospitalized

PORTLAND, Ore. (INS) — Justice William O. Douglas of the United States Supreme Court was under medical observation in Portland's Providence Hospital Tuesday for muscular soreness in his right hip.

Justice Douglas entered the hospital late Monday after a trip from Palo Alto, Calif., where he attended a conference of federal judges.

Hospital attendants said there was no immediate indication when he would leave the hospital.

After he is released, Justice Douglas said he plans to leave for his summer home at Forks, Wash., and later make a flatboat trip down the middle fork of the Salmon River in Idaho.

## Quiet Fourth

DULUTH, Minn. (AP) — Albert Woolson, 109, Civil War veteran hospitalized since Memorial Day, plans a quiet Fourth of July smoking cigars and perhaps getting a little sun.

His daughter, Mrs. John Kobus, said the lone Union Army survivor felt better since his most recent attack of lung congestion.

## Sergeant Gets Brig Term In 'Maltreatment'

PARRIS ISLAND, S.C. (AP) — A 24-year-old Marine drill sergeant, twice commended for his outstanding work with trainees, Tuesday was sentenced to 12 months at hard labor after a court-martial found him guilty of maltreating recruits.

The court ordered that Sgt. Arthur E. Ashcraft, a native of Covington, Ky., be given a bad conduct discharge after he serves his sentence in the brig at this Marine Corps recruit depot.

Ashcraft also lost his rank, along with forfeiture of \$75-a-month pay for the next year. The case now goes to the post commanding general for review, then to the judge advocate general of the Navy. If no error is found, Ashcraft can appeal to the Military Court of Appeals.

Code Violation  
The court, which took testimony for a day and a half, found Ashcraft guilty of three counts of maltreating recruits and innocent of 10 other similar counts. The latter charges were covered under a separate charge of violation of the Code of Military Justice.

Seventeen prosecution witnesses testified. Most of the witnesses accused Ashcraft of either kicking or striking them or other members of his platoon.

Ashcraft, who testified in his own behalf, vigorously denied the charges. He said he had "tapped" several of the trainees in the stomach but never struck any blows.

Little Work  
Lienemann noted that the county has had since January a committee ready to work with the city on tax assessing and collecting consolidations, but little has been done.

In his letter to Jeary, Brehm had noted that the special election "certainly indicated the people of this county are tax conscious and that they want savings of tax dollars by local governments as soon as possible."

In proposing the city's willingness to combine the jails, Jeary had noted the long-standing criticism of the county jail, which has been condemned for 30 years by the federal government for its prisoners.

Brehm had pointed out a citizens study committee reported \$40,000 savings annually were possible for the city in the immediate consolidation of assessing offices and expressed "hope" that the tax collecting offices could be merged with proper charter amendments and state law amendments by 1957.

Jeary said Brehm's letter was "very fine and proper" and that he would attempt to arrange a meeting Thursday with the county board chairman. The mayor said he felt it was not yet time for a joint meeting of the full Council and County Board.

A Bit Previous

Mrs. James Bouquet, 21, of Lincoln, recuperates at an Omaha hospital after her husband, a sailor at the Lincoln Naval Air Station, delivered the couple's

second child at a Millard farmhouse when the stork arrived as they were en route to Omaha. The baby is being kept in an incubator. (AP Wirephoto)

## LINCOLN DAD DELIVERS BABY IN FARMHOUSE NEAR MILLARD

OMAHA (AP) — A 21-year-old Lincoln father, hailed in a dash for the Offutt Air Force Base Hospital by a tire blowout, delivered his

wife's 5 pound, 3 ounce baby in a farmhouse near Millard.

Mrs. James Bouquet, 20, and her new daughter were reported doing fine Tuesday afternoon in Lutheran Hospital here.

James Bouquet, a sailor at the Lincoln Naval Air Station, said they had set out from Lincoln Monday for the Offutt Hospital.

"We thought we had plenty of time," he said Tuesday. "We have had several false alarms before."

As they neared Omaha, Bouquet became sure his wife was going to have the baby "any time." About 1 1/2 miles from Millard, a tire blew out.

Flat tire and all, the worried father drove to a nearby farm and called the Ralston rescue squad.

Meanwhile, Mrs. Bouquet had her baby.

The proud father assisted, even to spanking the infant to start it breathing.

The rescue squad finally arrived and took Mrs. Bouquet and the baby to the hospital. The child, still unnamed Tuesday afternoon, is the couple's second. The first, James Jr., is 14 months old.

Very Serious  
The little girl's condition was listed as very serious.

Muskegon County Deputy Sheriff Joseph Sugarbaker said the lion apparently was being persuaded to perform while chained.

The little girl wandered up for a closer look and the lion sprang.

Sugarbaker said the animal did not maul the child nor continue its attack. He said the lion's owner, George Denio and a neighbor, Edward Dykema, where the Harris family was visiting, both said the lion was "not mean."

Markers Bill Signed  
WASHINGTON (AP) — President Eisenhower signed into law a bill under which markers could be erected in national cemeteries in memory of members of the armed forces who were killed or died on active duty and whose bodies were not recovered. Previously such markers were erected only for those reported "missing in action."

As custodian of the bird, which was tame and easily caught by Katherine Schultz, Bar Associate member, Turner expressed the hope that the bird's owners would pick him or her up.

The feathered creature presently is residing in the Turner home, making friendly glances at the Turner parakeet.

Parakeet Flies Into Library; Makes Friends  
A tame and slightly weathered green parakeet, evidently intent on catching up with its reading, fluttered into the Nebraska State Library at the Statehouse Tuesday.

George Turner, clerk of the Supreme Court, reported the amiable bird isn't talking but appears none the worse for wear.

As custodian of the bird, which was tame and easily caught by Katherine Schultz, Bar Associate member, Turner expressed the hope that the bird's owners would pick him or her up.

## Wilson Exchanges Blunt Words With Democrats

... During Tense Senate Hearing

WASHINGTON (AP) — Secretary of Defense Wilson clashed with some of his Democratic critics Tuesday in a tense Senate hearing that produced blunt words about heavy bomber production and less serious comment on the natural instincts of whales.

Wilson told a special Senate subcommittee investigating U. S. Russian air strength that he has not ruled out a new speedup in production of long range B52 jet bombers. He said this might come after the bomber program is reviewed in the fall.

Sen. Jackson (D-Wash.) asked how many more billions the Defense Department would ask next year in new appropriations.

"It is going up a billion or two?" Jackson asked.

Fair Guess  
"That would be a fair guess," Wilson replied.

Defense appropriations for the fiscal year that began Sunday total about \$35 billion dollars. President Eisenhower has signed the money bill.

Another point touched on in the stormy hearing was Wilson's use of the word "phony" in a discussion of senate consideration of this measure.

When a subcommittee member suggested Wilson often gets in trouble by making off-the-cuff remarks, the defense boss said he was reminded of this statement, which he credited to a Mama whale instructing her calf:

"It's only when you are blowing that you are liable to be harpooned."

Harriman Ends Midwest Drive  
NEW YORK (AP) — Gov. Averell Harriman flew in Tuesday night after a four-day Midwestern trip in search of delegates to back his candidacy for the Democratic presidential nomination.

"The farmers are up in arms and very resentful of the way they have been treated," he told reporters at Idlewild Airport on his arrival from Minneapolis.

Earlier, he had expressed satisfaction with his swing through Iowa, Minnesota and North Dakota. On Thursday, he is scheduled to breakfast with former President Harry S. Truman, who arrived earlier Tuesday from a European trip. Truman has spoken of Harriman in glowing terms, without, however, endorsing his candidacy.

## Concrete Haulers' Strike In 14th Day

The strike of concrete-haulers for the Reimers - Kaufman Concrete Products Co. and the Ready Mixed Concrete Co. entered its fourteenth day Wednesday with apparently no new developments.

Gene H. Tallman, management spokesman, had no comment on the strike Tuesday or upon the impending arrival of an inspector from the National Labor Relations Board (NLRB) office in Kansas City.

The NLRB ordered the inspector to Lincoln when management petitioned the Kansas City office to call for a vote by the workers to see if the union which claims to represent them, AFL-CIO Teamsters Local 639, really does.

William Isbell, union spokesman, was not available for comment Tuesday, but a local union source said that there was "nothing new" on the walkout.

Siamese Twins Born In California  
SAN DIEGO, Calif. (AP) — Birth of Siamese twin boys was reported Tuesday.

The infants, born in suburban Grossmont Hospital, are the sons of Mr. and Mrs. Floyd Hutchens, El Cajon, Calif. They and the mother are reported doing well.

The twins are joined back-to-back in the lower part of the spine. The connecting tissue is one inch in diameter.

Dr. Leroy E. McDowell, who delivered the babies, said there was no bone connection. He said he believed the twins can be separated surgically without danger to either. Any operation will have to wait until the boys gain weight, he said.

The babies weighed between 5 1/2 and 6 pounds at birth.

Mrs. Hutchens and her husband, a construction worker, have two other children, Ronald Dean, 5, and Floyd Don, 12.

## Boy, 13, Charged With Murder In Cousin's Slaying

SPRINGFIELD, Mo. (AP) — A 13-year-old boy who told police he stabbed his girl cousin to death because of "a sudden urge to kill someone" was charged Tuesday with second degree unpremeditated murder.

Juvenile officer David Woodruff said the charge was filed in Juvenile Court "to locate jurisdiction in the juvenile division of Circuit Court." He said it did not "necessarily mean the case will be decided in this court."

The boy, John Pat Drennon, will undergo psychiatric tests later this week.

His cousin, Carol Drennon, 14, was found dead on the patio of her home last Friday, stabbed 30 times. John Pat told police that before and after attacking her with a steak knife he prayed at a crude "shrine" he made of used bricks in a vacant lot.

Carol was the adopted daughter of Lawrence Drennon, well-to-do owner of a heavy construction equipment company.

One Killed 30 Injured In East Fire  
WORCESTER, Mass. (INS) — One man was killed and between 30 and 40 other persons, mostly firefighters, were injured Tuesday night as a three-alarm fire swept a four-story apartment block.

Firemen who answered the first alarm found the building enveloped in flames and two more alarms were sounded immediately.

Name of the dead man was not immediately known.

Most of the injured firefighters were felled by smoke inhalation, while others were hurt by falling debris, according to police.

## Nine Injured In Maryland B.&O. Wreck

BUNSWICK, Md. (AP) — Four passengers and five railroaders were hurt, none seriously Tuesday as four cars on the Baltimore & Ohio's Eastbound Shenandoah passenger train derailed and stopped short of going down an embankment into an abandoned canal.

The Chicago-Washington train was going about 50 miles an hour when the last three Pullmans and a club car went off the tracks near the railroad's yards in this western Maryland town on the Potomac River.

The first derailed car furrowed five feet through the earth before toppling over on its side. The three others came to rest, tilted. Nearby is a steep embankment adjoining the abandoned Chesapeake & Ohio Canal.

Most of the passengers on the derailed cars were transferred to the other eight on the train which proceeded to Washington.

The injured were taken to Memorial Hospital in Frederick about 10 miles away. Doctors said except for two who had possible broken limbs, none of those admitted appeared to be suffering from more than cuts and bruises.

'Colonialism'  
WASHINGTON (AP) — The Senate passed and sent to the House by unanimous voice vote a bill to relinquish as a "symbol of colonialism" this country's last extraterritorial rights in Morocco.

The State Department had urged its passage, pointing out that the United States had retained no such rights in any other nation.

The old agreement, negotiated in 1836, granted U.S. citizens the right to have certain criminal and civil cases tried before the U.S. consular official in Morocco instead of before Moroccan courts.

## Cow Helps Him Out:

# Flood Trees County Farmer Overnight

By DEL HARDING  
Star Staff Writer

The tail of a cow he "wanted to get even with anyhow" Tuesday provided farmer Marinus Knudsen an escape from rampaging flood waters on his farm four miles south of the State Penitentiary on U.S. 77.

Knudsen, 64, had gone to check his stock about 11:30 Monday night. Salt Creek, which cuts through his farm, had been overflowing for several hours. The waters had risen higher than he expected, and before he realized it, Knudsen was in swiftly-flowing,

muddy water up to his neck. Rather than risk being swept away, he climbed a tree and decided to wait until morning. He removed his boots every so often and massaged his cold feet.

His wife had dozed off on a couch at the farmhouse. She awoke

about 12:30 a.m. Tuesday and realized her husband should have been back from his cattle-checking.

"I was worried to death," she said. She opened the door only to see with alarm that the flood waters were within 15 feet of the house. After unsuccessfully trying to telephone a neighbor, she decided to wait until morning and seek help.

She waited a few hours then telephoned Emil Erlich, who farms about 1 1/2 miles northeast of the Knudsens. He came over and, standing on a piece of high ground, called to Knudsen, who answered him.

Erlich began calling to the cattle which reluctantly began to make their way towards the house. Knudsen waited until he saw his "corneriest" heifer and grabbed onto her tail.

Knudsen said the cow went under the water several times but popped up again. He estimated the tree in which he spent the night was a quarter-mile from his farmhouse.

Knudsen said he "wasn't scared," and knew if he kept his head he would be all right. His wife wasn't so confident: "I thought he was drowned for sure!" she said.

Most of Knudsen's 172-acre farm was inundated, but he appeared in good spirits. "It doesn't hurt the crops . . . good irrigation," he commented.

## Vic To Push Reinstatement Of Hwy. 10

Gov Victor Anderson reported Tuesday he will recommend that Hwy. 10 in Kearney County be replaced on the state map and retained under state maintenance and repair.

The governor's action followed a 4-3 vote by the State Highway Commission to put the road back under state responsibility. The State Highway Department had taken the 17-mile stretch of gravel and paved highway off the state map.

Following the commission's action, Gov. Anderson said he will follow his announced policy of going along with the commission's recommendations.

Hwy. 10 was reinstated following the appearance of a delegation from Kearney County, headed by Sen. Kathleen Foote of Axtell.

Action by the commission came on the motion by J. R. McBride, Commission member from Minder, the southern terminal of the highway.

Involved in a second resolution offered and held off in connection with the highway was an offer by the Kearney County Board of Commissioners offering \$20,000 a year up to a total of \$100,000 for improvement of Hwy. 10 in the county.

An opinion was to be requested from the attorney general on whether or not the money could be accepted.

L. N. Ress, state engineer, said the state would not be obligated in any manner in the way the money was spent. He added, however, that the figure set by Kearney County would "just about" take care of state costs in keeping up the highway.

## JULY 4th 1956

Here at Gold's, a store that began with a family of only nine co-workers in 1902, there has always been the spirit of Togetherness, that wonderful word for work and responsibilities, for happiness and sorrows mutually shared.

Today, our great organization of over a thousand happy co-workers understands Togetherness and believes in it. Always a great family, we of Gold's have worked, played, and prayed together as an understanding, affectionate unit.

Here in Lincoln, Togetherness means thousands of happy families, most of us in our own homes, living and thriving in a friendly, understanding atmosphere, meeting and solving our problems with that same cordial comradeship and neighborliness.

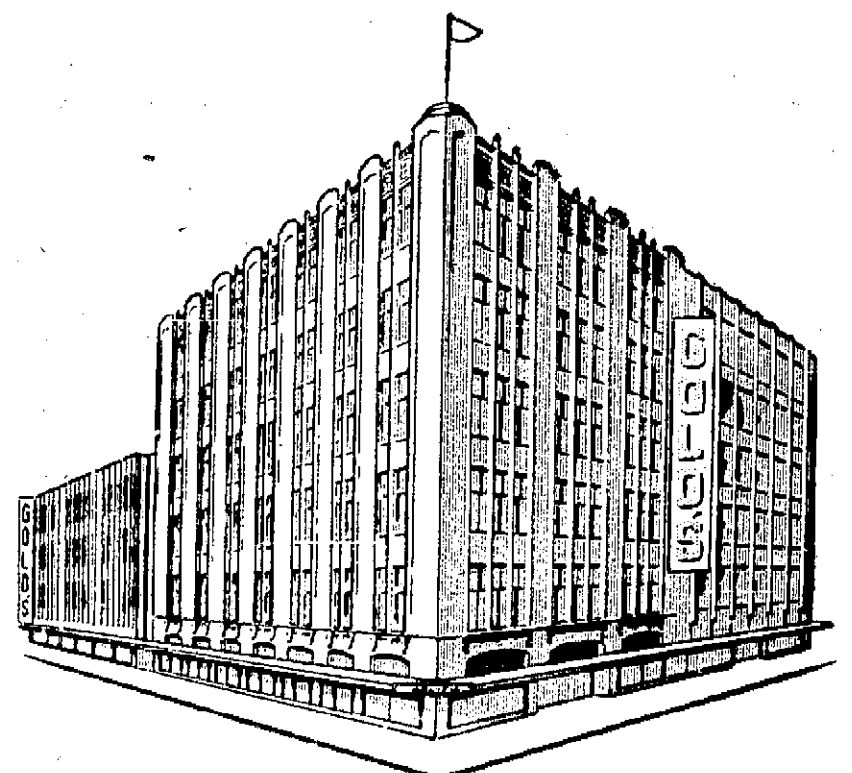

In Nebraska and throughout the Nation, together we guard our country and our way of life. Togetherness is the trend toward closer family relationships that is the hope of our time. Never have there been so many families, so many children in families, so many self-owned homes.

On July 4, 1776, the Declaration of Independence was adopted by the Continental Congress in Philadelphia. Now, one-hundred and eighty years later, it remains man's greatest heritage. It is the landmark of our freedom, our rights, and our obligations. By the gracious goodness of the Almighty, may our Togetherness ever preserve it.

(Togetherness is a word practically invented by McCall's, the great family magazine, and adopted by Gold's of Nebraska, the great family store.)

# Ton-Mile Tax Petition Signed By Nearly 50,000; Fight Looming

## Armored Truck For Tax Petitions

Petitions asking that a ton-mile tax amendment be placed on the November ballot are shown being carried up the front steps of the Statehouse Tuesday. The petitions were brought from Omaha in an armored truck.

From left, in front row are Adolph Larsen, Samardick & Co., guard; Arthur J. Hanson, Omaha street commissioner, C. E. Beals, Lincoln, secretary-treasurer of the Committee for Better Roads Through Fair Taxation, Guard Floyd E. Purchase,

C. J. Frazier, mayor of North Platte, and Lyman R. Hanson, chairman of the county board at Wahoo. Back row, from left are Roy Towl, former mayor of Omaha, and State Sen. Lester Andersen of Aurora. (Star Photo).

**ROY CAMPBELL**  
Star Staff Writer

Close to 50,000 ton-mile tax petition signatures were delivered to the Secretary of State in an armored truck Tuesday and an immediate protest voice was signaled by the Nebraska Motor Carriers Assn.

The petitions, from all 93 counties in the state, asked that a constitutional amendment be placed on the November ballot requiring a vote on taxing trucks on a sliding scale based on weight and distance traveled. Backers of the petition move claim the ton-mile tax would result in additional income of about \$6 million for

highway matching purposes with the federal government. Paul Halpine, secretary of the Motor Carriers Assn., said the petition filing "puts up squarely to the public the question of whether or not they desire to pay \$15 million (in costs and loss of interstate truck tax revenue) to get \$6 million for highway construction."

The petitions were filed by the Committee for Better Roads Through Fair Taxation. In filing the petitions, C. E. Beals, secretary-treasurer, said the committee knows "beyond the shadow of a doubt, that the people of Nebraska are behind this movement."

## NWU Grad Takes Summer Jobs In Stride

A summer in an Ozark pickle patch, painting churches in Pennsylvania, school teaching and now a summer in Ecuador are all taken in stride by a 23-year-old Humboldt girl.

Eliza Beth (Luz) Lugenbill, a 1954 graduate of Nebraska Wesleyan University, has chosen the work camp project for the year and will leave July 9 for the United States and

and a work camp sponsored by the Presbyterian, U.S. and U.S.A., and Evangelical and Reform churches.

She and approximately 25 other young people will help to set up playground equipment at the Government Teachers Training School, where rural school teachers are trained. They will also do some touring and will visit the Mission headquarters—the school, hospital, and the agricultural department.

Luz's first Caravan experience was in the Ozarks in 1954 where she was a girls camp counselor and worked with the agricultural part of the program of the community center. It was here that she helped to take care of a ten-acre pickle patch.

In 1955 Luz went to the East Coast with another Caravan. There they traveled around doing camp counseling and painting churches and furniture, principally in Pennsylvania.

## Hwy. 250 Hearing Sought, Scheduled

The State Highway Commission has scheduled a hearing for 1:30 p.m. on July 23 on the requested reinstatement of old Hwy. 250 south of Rushville to the State designated system.

Owen Boyles, Commission secretary, said Sen. Jay Cole of Merriam requested the hearing.

The road was dropped from the system in the 1955 Legislative act which re-defined Nebraska's state highway set-up.

## Bid On Ashland Work \$5,000 Over Estimate

The one bid received by the city for fencing and road work at the Ashland water treatment plant was nearly \$5,000 over the city's estimate.

Dobson Bros. Construction Co. bid \$30,750 while the city's estimate, prepared by Fulton & Clamer, was \$25,975. Plans call for fencing and road work in the Ashland water well field.

## Mrs. J. A. Graham Dies At Age 80

Mrs. Jessie A. Graham, 80, of 7202 Platte, died Tuesday.

Born in Evanston, Ill., Mrs. Graham had lived in Nebraska 78 years and in Lincoln 60 years.

She was a member of Vine Congregational Church, Columbia Chapter 275, O.E.S. and Royal Neighbors.

Surviving are her husband, John T.; one son, Harry of Rt. 3; one daughter, Mrs. Ruth Fredericksen of Omaha; brother, Stewart M. Ricker of Kansas City, Mo.; and six grandchildren.

## Franklin Police Chief Dies From Crash Injuries

FRANKLIN, Neb. (AP)—Frank Lantis, 60, chief of police at Franklin for about 20 years, died Tuesday of injuries suffered June 27 in a two-car crash here.

Lantis was making his usual rounds shortly after midnight June 27 when his car, while in the process of a U-turn, was struck by one driven by Paul League, also of Franklin.

Survivors include his widow and one son, Melvin, of Imperial.

## Church Now Known As Bethel Community

AUBURN, Neb.—The Methodist Church east of Auburn became the Bethel Community Church at a charter program. The building was purchased from the Methodist conference, and the Rev. John Roger of the Stella Community Church delivered the first sermon.

## Standing Ovation

Democratic National Committeeman Bernard Boyle of Omaha can take a real measure of pride in the fact that he was re-elected without opposition for another four-year term to the post which he has filled so competently since he assumed direction of Democratic national affairs in Nebraska. It was a measure of the esteem and respect in which he is held by party associates that when announcement of his re-election was made the party faithful got to their feet to tender him a heartfelt standing ovation.

Mr. Boyle has earned it. It is greatly to his credit that consistently he

has been above factional disputes within the Democratic party of Nebraska, seeking only to bring the two together in the spirit of unity, and common cause. There is a big job for Mr. Boyle. At the present time his chief concern naturally will be to organize the lines and to make ready for the 1956 presidential campaign.

We have the notion Nebraska may find itself in the need of a Democratic president and a Democratic Congress more than it realizes presently. In a thankless job which carries no compensation with it, Mr. Boyle had devoted endless time and energy to the job. It was pleasing to find his efforts appreciated.

## Safe And Sane Fourth

The Fourth of July holiday is with us again. The majority of Americans will take the day off and turn from work to recreation.

For quite some years now America has observed a "safe and sane Fourth." Most localities have ruled out firecrackers, dynamite and other ear-shattering things that give such delight to children, but prove a burden to the less zealous adults. The logic of it was weighty enough from an adult viewpoint. Firecrackers are dangerous. They can set fires and blow away parts of children. Hardly a Fourth used to go by without news of several deaths and a proportionately greater number of serious injuries. Besides there is no relation in logic to the proceedings of a solemn convocation of thoughtful patriots composing a Declaration of Independence and the unseemly activity of blasting people out of their chairs with giant firecrackers.

But on this forthcoming "safe and sane" Fourth of July the National Safety Council estimates that 130 Americans will die in traffic smashups. The council would like to reduce it to 80 and says that such a low figure is attainable with just reasonable care on the part of most drivers plus extra attentive law enforcement. But the council is playing it safe. It is sticking with the past record which averages up 130 for 1956. If that figure is reduced by 10 it will be considered a triumph.

What inconsistency! What austerity with children over a minor injury toll! What a sense of judgment and maturity! What an incongruous position on safety taken by adults who will now engage in a delight of their own whose price will be something like 130 killed and far more terribly injured. It leaves us without much of an explanation.

## Fifteen Out Of Sixteen Years

A region that so short a time ago was wining under the stinging blows of drought turned flood-minded this week as nature belatedly drenched Southeast Nebraska.

Salt Creek poured out of its banks, threatening briefly for a time a major flood.

The Nemaha, to the south rolled in old time form, taking railroad track, portions of highway and its share of bottom land crops with it.

The Big Blue, placid and peaceful, beautiful and

helpful, so many months of the year, got back in the game after a year's lay-off. Tuesday its muddy crest left behind a wake of sodden bottom lands as it bore down on Wymore, which is getting close to the Kansas line.

By one stream or another most of southeast Nebraska had a flood to report.

Perhaps the most thought-provoking statement in regard to the return of the floods came from L. Boyd Rist, president of the Wymore National bank.

"I suppose outsiders would consider it a bad flood," he commented. "But we are rather used to it."

"The Blue has delivered one or more major floods a year to its lower valley every year since 1940 with the exception of 1955."

That is to say that 15 years out of 16 the Blue, which is a river of consequence in southeast Nebraska, is permitted without restraint to wreak havoc on innumerable towns and farms, charging up millions in erosion of fertile soil, destruction of bottom land crops and damage to man-made things like railroads, towns and highways.

It is also permitted to generate its tidal waves to the fullest and deliver them in a periodic assault on Kansas. With the Republican River, and help from the Little Blue, it has done yeoman work in contributing to Kansas river floods, the mightiest of which a few years ago gave Kansas City a record breaking fixing.

It is time to think in large terms about realistic flood control along these explosive southeast Nebraska watersheds—to have done with dike discussions followed by little or nothing of consequence.

The annual losses charged against the soil, its production, and the people, accumulated over 15 of the past 16 years unquestionably would have doubly warranted the construction of the most fabulously conceived major flood control program.

Nebraska nor any other state can afford to treat recurring losses so lightlyheartedly.

## Safety Outdated

Arizona's tragic air crash death toll cautions America to engage in a detailed reappraisal of its air commerce and its regulation with emphasis on maximum safety.

The business has outgrown its early framework of safety, and greater loads and greater speed have outmoded past functions of the Civil Aeronautics Administration.

The picture is clouded by friction back in Washington. CAA is operated as an adjunct of the Department of Commerce while its responsibilities call for something more sovereign than that. It is to be recalled that CAA's five year plan which contemplated putting every plane under observation of ground control stations is moving but slowly and a program for coverage of airplanes with radar is also far behind.

One cannot say that a well-developed radar service and other controls would have averted the week-end tragedy, but it is undeniable that such things will add greatly to safe flying and their installation should not be allowed to lag.

One of the factors in this nation's tragic and continuing highway traffic problem is the failure to build fewer death traps in highways, to educate more careful drivers, to build in more safety in cars and to regulate traffic more closely. It would be doubly wrong to permit slackness to bring the same blight to flying.

## DREW PEARSON

### Founding Fathers Would Be Suspect

CONCORD, Mass.—Ducks waded on the bank of the Concord river unconcerned that they are in the shadow of the bridge "where once embattled farmers stood and fired the shot heard round the world," but they don't seem concerned about it . . . tourists, more concerned, snap pictures. They point cameras up the rolling hill from which 500 farmers armed with pitchforks and squirrel rifles came down to the bridge to turn back British Red Coats. . . . A lady from Iowa tells her 7-year-old that it was here that the Independence movement began in April 1776, how it swept down to Philadelphia, how Thomas Jefferson drafted the Declaration of Independence in July, how a little group of patriots signed it on July 4, how, understandably, they didn't have the courage to proclaim it or ring the liberty bell until four days later. . . . Across the field from the bridge a guide takes a group through the old manse, home of Nathaniel Hawthorne and the family of Ralph Waldo Emerson. Around it once revolved a cult of strong thinkers, individualistic thinkers—Henry D. Thoreau, Amos Bronson Alcott, the "Concord summer school of philosophy and literature." . . . Joe McCarthy would have called it a Communist cell, and the minute women of Texas and California today would have been shocked at the revolutionary ideas of the Minute Men who defended the bridge at Concord. . . . even Thomas Jefferson, who (after the revolution) wrote "The tree of liberty must be

watered by a little blood" might have been jailed today for proposing overthrow of government by force.

★ ★ ★

#### PAUL REVERE GOT CAUGHT

Children play in the late afternoon on the green at Lexington. Is a beautiful green—greener, neater no doubt than when Captain Parker ordered his minute men: "Stand your ground, don't fire unless fired upon, but if they mean to have war let it begin here."

Around that green, the suburbs of Boston, reaching out for more elbow-room, more air, more freedom from gasoline fumes, has taken over. . . . Paul Revere, if he made the brief ride from Boston today, would have got tied up in traffic jams. His horse's hooves might not have survived the punishment of concrete pavements. . . . Actually Revere never did get to Concord. He stopped first at Lexington where he had the dickens of a time waking up Samuel Adams and John Hancock, famous later as the first man to sign the Declaration of Independence in Philadelphia. They wanted to sleep. . . . and when Revere headed for Concord, the British caught him. They also caught Rufus Dawes, ancestor of Coolidge's vice president, Charley Dawes. The only man who sneaked through was Sam Prescott, who had a late date with a girl in Lexington and managed to ride the backroads seven miles to Concord to warn that the British were coming.

Opponents in the administration argued that the privilege was being granted to construct facilities which would have been built

Actually, although like many of the controversies in the Eisenhower administration it never showed above the surface, there was a sharp dispute over whether the fast tax write-off should be continued.

★ ★ ★  
It is on the tax write-offs granted to private utilities that the dispute is sharpest, with public power advocates throwing back at private utilities the charge of "subsidy" which they have long raised against public power.

A compilation of the American Public Power Association shows \$2,446,475,349 in private utility development eligible for the five-year write-off. The association claims that this interest-free loan, as it has been called by the Federal Power Commission, invested at 6 per cent for the accounting period of 33½ years, would realize a subsidy of \$4,276,811,362. The utilities say this is nonsense, since what is saved in five years goes to pay later taxes.

The same argument touches the claim of Admiral Lewis Strauss, chairman of the Atomic Energy Commission, that private utilities must be allowed to develop atomic power with private capital.

The Duquesne Light Company at Pittsburgh has under construction the only large atomic power development. Of the total investment of roughly \$107,000,000, the commission is supplying \$92,000,000 and Duquesne, under the contract, \$15,000,000. But after the contract was signed, Duquesne applied for a five-year tax write-off, which was granted on \$10,500,000. It is charged that over a 33-year period that will be equivalent to nearly the amount that the utility supplied to the project.

All this is so complicated that it hardly comes within the scope of ordinary politics. But if the economic climate should change, it is not hard to imagine how these tax privileges, and the search now going on for newly opened loopholes, could be exploited in a sensational congressional investigation. That kind of reaction has in the past brought the restraints that business and industry have most bitterly resented.

(Copyright, 1956, by U.F. Syndicate, Inc.)

## MARQUIS CHILDS

### Fortunate Fatten On Tax Write-offs

WASHINGTON — Three years after the end of the Korean war and in the midst of the greatest peacetime boom the country has ever seen, the Office of Defense Mobilization is still issuing certificates for fast tax write-offs to industry that are, in effect, interest-free loans.

The policy of the five-year tax write-off was initiated after the start of the Korean war under the Truman administration to give indirect help to firms building facilities for defense production that might otherwise not have been built.

But it has continued down to the present, with the latest report of the Office of Defense Mobilization showing the total of tax amortization certificates at \$36,271,546,000, of which \$22,001,691,000 can be written off in five years. In the period from May 31 to June 13 of this year, tax certificates amounting to \$148,656,189 were granted.

New Deal Democrats sputter indignantly over what they say is a bonanza by a business administration to big business. As one of them put it:

"They screamed about mink coats under Truman. But this is hundreds of millions and even billions for a favored few. I guess the trouble is you can understand about mink coats but the quick tax write-off doesn't get across."

★ ★ ★  
It is on the tax write-offs granted to private utilities that the dispute is sharpest, with public power

in the course of the peacetime boom in any event, that the "defense" justification was in most instances no longer valid. As a result, the practice was in part suspended for re-evaluation.

During the suspension, Secretary of the Treasury George M. Humphrey, who has shown that he does not tailor his convictions to political expediency, spoke out strongly, calling the accelerated tax write-off "an artificial stimulus of a dangerous type." Testifying before a House committee, he said:

"Our defense capacity cannot soundly be separated from the broad base of productive capacity in general on which our nation relies for its economic strength. Artificial stimulants may well become artificial controls."

"Because this one is not of universal application but is bestowed only upon some who especially qualify as against others who do not, it could become a hindrance to sound, balanced, vigorous growth of our whole free economy. It is not the American way."

In other words, if private enterprise is to continue to be private, it must remain free—free not only of controls but of subsidies which are often followed by control.

Humphrey pointed out that the government's tax loss as a result of the policy would be \$380,000,000 in the current fiscal year, and he added that this might well stand in the way of "more general tax reductions for all taxpayers which would be of important assistance to all business and to our continuing economic growth."

★ ★ ★

It is on the tax write-offs granted to private utilities that the dispute is sharpest, with public power

er advocates throwing back at private utilities the charge of "subsidy" which they have long raised against public power.

A compilation of the American Public Power Association shows \$2,446,475,349 in private utility development eligible for the five-year write-off. The association claims that this interest-free loan, as it has been called by the Federal Power Commission, invested at 6 per cent for the accounting period of 33½ years, would realize a subsidy of \$4,276,811,362. The utilities say this is nonsense, since what is saved in five years goes to pay later taxes.

The same argument touches the claim of Admiral Lewis Strauss, chairman of the Atomic Energy Commission, that private utilities must be allowed to develop atomic power with private capital.

The Duquesne Light Company at Pittsburgh has under construction the only large atomic power development. Of the total investment of roughly \$107,000,000, the commission is supplying \$92,000,000 and Duquesne, under the contract, \$15,000,000. But after the contract was signed, Duquesne applied for a five-year tax write-off, which was granted on \$10,500,000. It is charged that over a 33-year period that will be equivalent to nearly the amount that the utility supplied to the project.

All this is so complicated that it hardly comes within the scope of ordinary politics. But if the economic climate should change, it is not hard to imagine how these tax privileges, and the search now going on for newly opened loopholes, could be exploited in a sensational congressional investigation. That kind of reaction has in the past brought the restraints that business and industry have most bitterly resented.

## DORIS FLEESON

### Nixon Maneuvers Into Key Position

WASHINGTON—The Republican party has fatalistically staked everything on the proposition that President Eisenhower will be ready, willing and able to accept renomination, win re-election and take the oath next January.

With almost equal fatalism, it has again accepted its controversial vice president for second place.

Richard M. Nixon was swift and he has been strong enough to stave off the doubters within the party. When Thomas E. Dewey of New York recently put that great state in Nixon's corner, it became practically certain that no opposition to Nixon as the potential Eisenhower inheritor could succeed.

Yet a whole host of complex legal questions arise in connection with the intimations of mortality which must be considered with a man of 63 who has had a major heart attack and major surgery.

The Republican National Committee naturally does not discuss them publicly. But quite properly its research department has done its homework on the situation for which no exact nor even very near precedent exists.

To begin with, separate periods of time are involved.

★ ★ ★  
The first is the period between adjournment of the GOP convention, expected to be Aug. 24, and the election Nov. 6. A rule to govern this period is standard operating procedure in both parties, invariably adopted at each convention by delegates who probably never give it a second thought. This time Republican delegates just might.

Their 1952 rule, which they will be offered again by the national chairman, states that the national

committee shall have the power to fill any vacancy which shall occur on the national ticket or, in its judgment, it may reconvene the convention for that purpose.

The rule further specifies that the voting in the said committee to fill the vacancy shall be in accordance with the vote the individual states had in the convention. Thus New York would not just match Nevada one for one but would cast an overpowering 96 for its choice, who appears to be Nixon.

★ ★ ★  
It seems to GOP experts that between election day, Nov. 6, and the meeting of the electoral college, the 20th amendment to the Constitution takes over. This is the Norris amendment abolishing lame duck sessions of Congress and providing that Congress shall meet Jan. 3 unless it shall by agreement appoint a different day.

It reads, in relevant part, that "if the President-elect shall have failed to qualify, then the vice president-elect shall act as President until a President shall have qualified; and the Congress may by law provide for the case where, in neither a President-elect nor a vice president-elect shall have qualified, declaring who shall then act as President, or the manner in which one who is to act shall be selected, and such person shall act accordingly until a President or vice president shall have qualified."

According to the GOP experts, the question is: When does a President become a President-elect? (Copyright, 1956, by U.F. Syndicate, Inc.)

## BOB CONSIDINE

### New Jersey Gets Politeness Prize

NEW YORK — A big manufacturer who doesn't have to be named chose New Jersey as the site of a new plant not long ago, though several other states had made him flattering overtures. The decision came as something of a surprise to New Jersey, and after recovering from shock a state official asked why the man had selected as he did.

"Because the fellows in those toll booths on the Garden State Parkway are always so darn nice to me when I drive through—you know, 'Good morning,' 'Good afternoon,' 'Good night,' and 'Thank you,'" he said. And the state is consequently that much richer.

When the beautiful Parkway opened it possessed a feature which some of its toll-takers still do not know about. Their booths are wired for sound. Their manner with the passing motorist can be tuned in on at headquarters. As one result, they are the most unfailingly courteous toll-takers we've ever been frisked by. They should give lessons to every other toll-taker in the land. Most of them give a motorist the impression they want HIM to do the thanking after paying.

The chairlady of the Greater New York unit, Abraham Lincoln National Republican Club, opines "It is an accepted fact that the 1952 Taft-McArthur Republicans

Bob Considine

are very much disappointed in President Eisenhower. If a poll were taken at meetings of conservative Republicans and they were asked 'Who here supports Eisenhower?' the answer would be 'none'; but Senator Knowland does! Hence my word to members of the 'Knowland for President IF Committee.' When a patriotic group stages a rally to demonstrate that the majority of the people are for constitutional government, one of two names is a must on the program—Senator McCarthy or Senator Jenner. Senator Knowland is conspicuous by his absence.

"I am inclined to believe that the only way you will be successful in having Mr. Knowland supported by the conservatives is if Sens. Jenner and McCarthy endorse him."

And so it will go until the morning of Nov. 7.

★ ★ ★  
Chronic TV addicts and fanciers of movie theater popcorn will be jarred, perhaps, to learn that the average Japanese adult buys 80 books a year, including periodicals. That comes to \$40,000,000 books annually in Japan. More than 90 per cent of the Japanese public would be classed as bookworms in this country.

Favorite Amer. can authors: Hemingway, Faulkner and Steinbeck.

## GOP Reactionaries

Hastings, Neb.

To the editor of The Lincoln Star: Most of us knew that sooner or later, the real facts about Ike and his Republican bunkmates would come out. From the story now appearing in the daily press, it is quite evident that Ike has found out that he got in bed with the wrong bunkmates. He has found them and their Congress to be reactionary. So much so that at one time he was forced to the point of talking about forming a new party, but has now decided to hope for younger blood taking over party management.

Just what the reactionaries in his party may think about Ike now will never be known until after election day. They are wanting him to run again, for they admit they have no one else they can elect. Besides, their own hope of being re-elected is to slide in on Ike's coattails. But after they have been re-elected, on the slide-in, they will continue to give Ike sleepless nights again. The facts are that a Republican reactionary will always remain one until he dies. He has been educated along those lines, for his party has always been the party of reaction.

But what must progressive-thinking Republicans expect from their party when their President has been so disgusted with it that he wanted to start a new party? He hasn't been the only Republican president who wanted to do that! There was Teddy Roosevelt for instance and his "Bullmoosers." There is only one group that can expunge the reactionary Republicans from party control, and that is to vote Democratic.

## World Government

Lincoln, Neb.

To the editor of The Lincoln Star: We now see billions and more billions of dollars being tossed into the military drain. While schools, hospitals, etc. are so deserving of financial aid, and while taxes are so high, we are spending huge sums to maintain mighty man-killing organizations.

It seems such a short time ago that we had knocked out the last enemies on the face of the earth (or so it seemed) and we were looking for everlasting peace to begin promptly. Then a new enemy popped up and here we are on the same mad round of arms races and eventual war.

We are told that by being strong we can avoid being attacked. But we also find that our strength is in attacking—that we are weak defensively. Is a strong man able to retaliate massively with a bullet in his brain? Or can we win a war we have already lost?

Entering the mad arms races against Germany never saved England and France from attack in the First and Second World Wars. Arms buildups never bring peace; they bring only a short lived absence of war which ends with an explosion of war. We lose much effort which could be better used when we enter an arms race. As long as any state is free to start an arms race, there will be no peace.

To prevent war is a negative method, and ineffectual. To create peace is the positive method. Peace means that there is co-operation between all peoples to solve common problems, to assist each other, and work for the common good with understanding.

## The School Budget

Lincoln, Neb.

To the editor of The Lincoln Star: Now that the property owner has rebelled against the spiraling tax load as was proven in the recent special election, it seems to me that it is high time to put some kind of curbs on the "big grab"—the school funds.

The almost unbelievable arrogance of the powers-that-be in our school system was illustrated in Thursday's Star. Within 24 hours from the time that the taxpayer had expressed his view in no uncertain terms by turning down flatly the measures that would have substantially increased his taxes, this select group tells us they are increasing their budget by 23 per cent. The percentage figure may pass unnoticed until it is realized that the actual amount of cash involved is well in excess of one million dollars, or approximately ten dollars for each man, woman, and child in

the city of Lincoln. The entire bond issue wouldn't have run that high.

In my opinion, the voter showed rare good judgment in not allowing himself to be saddled with the expense of new construction since it would appear that our school authorities were only waiting to throw this added burden at him.

Thank heaven we were able to do something about the bond issues. My only regret is that the uprising came too late to stop the ten-million-dollar school bond issue which followed on the heels of a six-million-dollar issue for the same purpose.

It is a sad state of affairs that we are helpless to stop this skyrocketing cost of operating our schools. It is my understanding that there is no legal limit to the school mill levy and by all indications there is no limit to the board of education's demands.

# Western Oil Activity First Half Of 1956 Sets New State Mark

## 472 Panhandle Wells Drilled And Completed Since January

SIDNEY, Neb. (AP) — Although the western Nebraska oil industry now faces a slowdown in activity due to the steel strike, the record it established during the six months of the year was an all-time high.

During the January-through June span of 1956, there were 472 oil wells drilled and completed in the Panhandle.

That figure is 120 wells above the end of June peak in 1955, and

### Nebraska News

that year was the banner one, so far as Nebraska oil activity goes.

**Other Records**  
In every department, oilmen are smashing records—new discoveries, field wells, wildcats, dry holes and production.

For comparison purposes, here's the 1955-56 marks, side-by-side:

For the first six months of this year—28 discoveries, 153 field wells and 301 dry holes.

For the first six months of last year—23 discoveries, 130 field wells and 199 dry holes.

Here's the picture, this year, by counties:

Kimball—18 discoveries, 78 field wells, 141 dry holes.

Cheyenne—20 discoveries, 29 field wells, 54 dry holes.

Banner—five discoveries, 33 field wells, 50 dry holes.

Morrill—three discoveries, 13 field wells, 26 dry holes.

Garden—one discovery, 10 dry holes.

There was a total of 20 dry holes in Scotts Bluff, Deuel, Sioux, Dawes, Keith and Box Butte Counties, up to the end of June.

If the steel strike ends soon and oil drilling picks up sharply—

## July Fourth Celebrations May Get Wet

By THE ASSOCIATED PRESS

Rain threatened to take some of the whoop and holler out of Fourth of July celebrations in Nebraska.

Cool, showery weather was in prospect for most of this part of the nation Wednesday.

The majority of Nebraskans, rather than turning to public celebrations for the Independence day observances, apparently would be spending the day in outings of their own, or by staying at home.

Cool weather probably would spoil some swimming plans.

The State Safety Patrol, along with most highway law enforcement agencies around the nation, looked forward to a long day on the traditionally dangerous holiday roads.

Public fireworks were planned in many communities.

**Parties For Kids**

In Kearney, the Veterans of Foreign Wars planned to hold a Fourth of July party for children four to 12. There would be prizes for costumes, decorated bicycles and winners in games and races. Minden planned a fishing party for the kids.

Veterans organizations were making arrangements for an all-day celebration at Riverside Park in Neligh. Midget car racing, wrestling and a carnival as well as dancing and fireworks were planned.

Hastings and Oklahoma City American Legion Junior baseball teams were scheduled to play in a game at Hastings highlighting the holiday activities there.

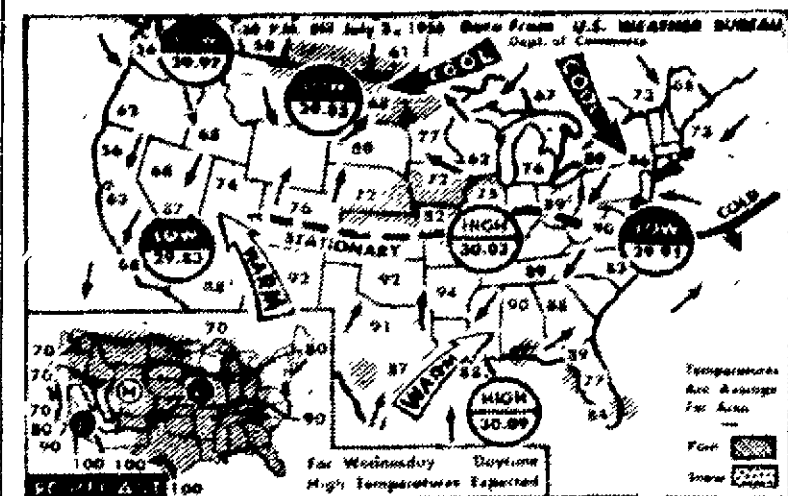

Schuyler looked forward to a three-plane jet fly-over and boat races at Victory Beach were planned at Fremont.

Free amusement park rides, an afternoon ball game and fireworks were on the holiday schedule at Nebraska City.

At Ogallala, the western influence was manifested in scheduled rodeo events and a performance by the Hyannis All-Girl Patrol.

### Corn Borer Infestation Is Less Than Expected

GRAND ISLAND, Neb. (AP)—County Agents Calvin Lepp of Merrick County and Clyde Clausen of Hall County reported the corn borer infestation in the area was not as heavy as had been anticipated.

### Showers May Dampen July 4 Picnics

Most of the nation will have scattered showers and thunderstorms Wednesday afternoon with the exception of the northeast, southern California and

southern desert region. It will be cooler in the northeast and warmer over the central Great Lakes, parts of the northwest and southern California. (AP Wirephoto Map)

## Farm Prices Take One Point Decline From Month Earlier

Prices received by Nebraska farmers for their products dropped slightly in the month ending June 15 and stood well under the level of a year ago, the State-Federal Division of Agricultural Statistics reported.

Using the 1909-14 base period as equal to 100, the index at mid-June was 247, down one point for the month and 11 points under the mid-June index last year.

Sagging crop prices accounted for most of the decline.

The all crops index dropped from 234 to 223 during the month, while livestock products were gaining two points to 256.

Wheat prices averaged \$1.87 a bushel at mid-June, down 13 cents for the month. Corn prices were nominally unchanged at \$1.46 per

bushel but oats, barley and rye prices fell off.

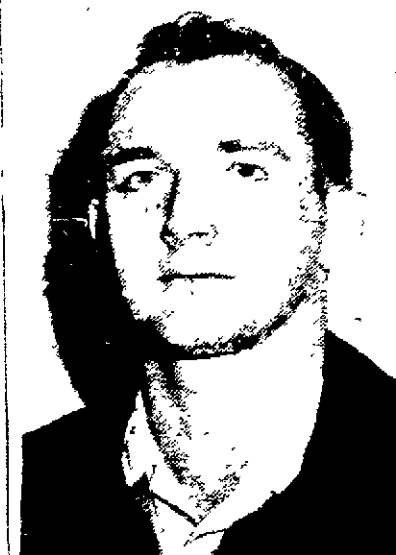

Hay prices declined with the shift from old crop to new crop. A \$1 increase in cattle prices brought the mid-June average to \$18.30 per hundredweight and was responsible for most of the two point gain in the livestock index.

"Recent rains curtailed local selling, and a substantial share of Nebraska cattle marketing were out of feed lots," the division explained.

Hog prices dropped 30 cents, partially as a result of a seasonally larger percentage of hogs in the total numbers marketed. Sheep prices dropped 40 cents per hundred to their lowest level since October of 1946.

Average prices at mid-June, and how they compare with a year ago:

Wheat—\$1.67 per bushel, down 15 cents.  
Corn—\$1.46, down 3 cents.  
Oats—67 cents, down 9 cents.  
Barley—90 cents, down 14 cents.  
Rye—97 cents, down 3 cents.  
Grain sorghum—\$2.13 per cwt., down 14 cents.  
Soybeans—\$17.20 per ton, down \$1.  
Alfalfa hay—\$17.70, down 80 cents.  
Wild hay—\$16.40, down \$2.  
Dry edible beans—\$9.90 per cwt., down \$1.20.  
Alfalfa seed—\$17.50 per cwt., down \$1.70.  
Soybean seed—\$2.70 per bushel, up 49 cents.  
Hogs—\$17.50 per cwt., down \$1.70.  
Cattle—\$15.30, down 70 cents.  
Calves—\$15.00, down \$2.80.  
Sheep—\$13.40, down 80 cents.  
Lamb—\$13.00, up 50 cents.  
Milk cows—\$107 per head, up \$5.  
Butterfat—50 cents per lb., up 4 cents.  
Milk retail—19.6 cents per quart, up .4 cent.  
Chickens—18.2 cents per lb., down 1.4 cents.  
Eggs—30.9 cents per dozen, up 4.5 cents.

### Takes Delaware Post

Wayne Bath, above, son of Mr. and Mrs. Robert Bath of Auburn, Neb., has been named State 4-H Leader for Delaware. He received his Master's Degree from the University of Maryland after obtaining his B.A. at the University of Nebraska.

## Sidney Wheat Harvest Will Start Early

Wheat cutting will start earlier than expected in the Sidney area, the Nebraska State Employment Service reported Tuesday. A few early fields already have been entered in the Potter area, the agency said.

Wheat is maturing earlier than previously anticipated in southwest Nebraska, the service noted in a wheat harvest bulletin. Around McCook, harvesting is half completed and cutting shortly will be in full swing around Imperial and Hayes Center.

Combines generally are in surplus supply in all harvest areas but supply and demand are in balance on harvest workers.

The service said harvest is about half completed in Clay, Nuckolls, Webster, Adams, Franklin and Kearney Counties.

Harvest is 50 to 75 per cent completed in Harlan and Phelps Counties.

Some cutting of early wheat has gotten under way in the Paxton and Wallace areas, with general cutting expected to start in the Grant and Ogallala areas after the holiday.

## House Group OKs Farwell Water Bill

WASHINGTON (AP)—The House Interior Committee Tuesday approved a bill to authorize construction of the Farwell reclamation project in Nebraska as a unit of the Missouri River Basin program.

The project estimated to cost about 30 million dollars, would furnish irrigation water for 52,500 acres of land in Howard, Sherman, and Valley Counties, Neb.

## Foreign Delegates Visit Tractor Lab

Twelve foreign delegates have been visiting the tractor testing laboratory and the agricultural engineering and agronomy departments at the University of Nebraska this week.

Each of the individuals is in the United States to study from two months to one year under the supervision of the International Cooperation Administration.

## McCook Industry Closes Pending A New Contract

McCook, Neb. (AP)—The McCook Packing Corp., the city's largest industry, has been shut down pending negotiation of a new working contract.

Both labor and management agreed the closing was not a strike. The firm's contract with the United Packinghouse Workers expired June 30.

The firm employs about 80 workers, about half of them members of the union.

Fred Kraft, president of Local 311, said the union seeks "a fair increase."

Plant Manager Nat Romanoff said meetings with union representatives to draft a new contract were planned.

## Bek, Buckholz Named To Board At Concordia

SEWARD, Neb. — Arthur Bek, Seward businessman, and Emil Buckholz, principal of Christ Lutheran Church at Columbus, were re-elected to the board of control, Concordia Teachers College, Seward.

# Goodbye To Mary Jane Headrick

Even a goodbye party can be fun when the hostess, the guests and the honoree are high school classmates, and when the honored guest is leaving for her new home in an exciting spot known

as French Morocco—Anyways, when Miss Bernice Van Allen was hostess at her home on Monday evening, her guests were Southeast High School classmates, as was the incentive

for the party, Miss Mary Jane Headrick who leaves soon with her parents, Maj. and Mrs. Omer Headrick, for French Morocco.

In the picture we find Miss Headrick, seated on the floor, and interested in the farewell gifts are, left to right, Miss Marlene Vaughn, Miss Phyllis Casper, Miss Kay Lewandowski, Miss Jackie Beard, Miss Van Allen, Miss Milly Wolcott and Miss Mary Severin.

REMEMBER Esther Gaylord? If you were on the Nebraska campus some 20 years ago you do, for Esther Gaylord, Mortar Board, beauty queen, president of AWS, and activities girl extraordinary, was exceedingly popular—Esther Gaylord, due to her extreme good looks, went on to New York and became a most successful Powers model—and then she up and married Harry Howze. Mr. Howze now is director of Standard Oil operations in the Near East, and the Howzes, Mr. and Mrs.—and their son, Bruce, reside in Cairo, Egypt.

Mrs. Howze and her son are in Lincoln at the moment, visiting Mrs. Howze's father, C. P. Gaylord, but making Hotel Cornhusker their headquarters—and they will be joined here on Thursday or Friday by Mr. Howze who is flying directly to Lincoln from Cairo.

ON Thursday morning Miss Elsie Ford Piper and Miss Jennie Lou Piper will be hostesses when they entertain at a 10:30 o'clock coffee at their home honoring Mrs. Howze, and on Thursday evening the Misses Piper will entertain at a family dinner at the University Club in courtesy to the visitors.

ANOTHER well remembered guest in Lincoln is Mrs. Max Foreman (Virginia Sartor) of Kansas City who with her two daughters, Miss Sarah Fore-

man and Susan, arrived a few days ago for a visit with Mrs. Foreman's father, E. W. Sartor.

On Monday Miss Sarah Foreman, a junior at Scripps College, Claremont, Calif., and her sister, Miss Susan, a senior at Sunset Hills School for Girls in Kansas City, returned to their home, but Mrs. Foreman is remaining for another week or two.

On Tuesday Mrs. Foreman joined a foursome of old high school friends for lunch at the Lincoln Country Club.

TODAY is "happy birthday" day for Miss Holiday Anne Hardy, who is four years old and the daughter of Philip S. Hardy—But the young Miss Hardy isn't celebrating today—the party was last evening when her father entertained a group of small fry and their parents at a swim party and supper at his home in celebration of his daughter's birthday. On hand for the party was Holiday Anne's brother, Calvert Hardy who, with his sister, is spending the summer in Lincoln.

AND speaking of birthdays—there are a number on the books for Thursday—E. J. Faulkner's, George Abel Jr.'s—Thurston Phelps, just to name a few—We don't know the plans of any of the celebrants but Mr. Faulkner and Mr. Abel who, with their families, will have their usual anniversary party.

This time the birthday party will be a dinner at the Lincoln Country Club.

LAST evening Mr. and Mrs. Wardner Scott were host and hostess at their home when they gave another series of hors d'oeuvres parties.

SOMEONE told us that Mrs. F. H. Deurmyer left on Tuesday

for Menlo Park, Calif., to spend several weeks as the guest of her son-in-law and daughter, Mr. and Mrs. Ted Welton and their two children, Mark and Leslie. Mrs. Welton is the former Catherine Deurmyer.

SATURDAY so we hear, will bring a guest to the home of Mr. and Mrs. Walton Ferris—Mrs. Ferris's sister, Mrs. Mildred Jardin of Los Angeles. On Sunday Mr. and Mrs. Ferris will hold open house in courtesy to Mrs. Jardin, and then the Ferris family, Mrs. Jardin, and Mrs. Ferris's mother, Mrs. Mattie Armstrong, will take off for the Ferris summer home at Pelican Lake, Minn.

LEARNED that Mr. and Mrs. Charles E. Baer have been the guests of Mrs. Baer's parents, Dr. and Mrs. Charles H. Patterson in Lincoln, and Mr. Baer's parents, Dr. and Mrs. B. H. Baer, in Ashland.

Mr. and Mrs. Baer have been residing in Denver where Mr. Baer was a flight engineer with the United Air Lines, and where Mrs. Baer was on the staff of the Social Service Department at Colorado General Hospital. Mr. and Mrs. Baer, however, now are to be residents of Chicago—headquarters for Mr. Baer who recently was promoted to co-pilot for United Air Lines.

HEAR that Lt. and Mrs. Richard Burt arrived in Lincoln last week-end, and that the army officer has completed his two years tour of duty with the army engineers. During their stay in Lincoln the visitors are the guests of Lt. Burt's parents, Mr. and Mrs. Lloyd Burt. They plan to have a holiday in Yellowstone Park before going to Milwaukee where they will reside.

# Will Be July Bride

MISS NANCY LEA SNYDER

This morning Mr. and Mrs. Lee R. Snyder of Trinidad, Colo., make announcement of the engagement and approaching marriage of their daughter, Nancy Lea, to Russell Bogue, son of Mr. and Mrs. George Bogue of Shelton.

The wedding is planned for Sunday, July 29.

Miss Snyder is a graduate of

Hastings College where she is a member of Sigma Tau Sigma sorority.

Mr. Bogue, a graduate of Kearney State Teachers College where he is a member of Phi Tau Gamma, received his Master's degree from the University of Nebraska. He now is basketball and baseball coach at Hastings College.

## BRIDES

This morning, Miss Beverly Engelbrecht whose marriage to Robert Johnson of Omaha will be solemnized on Saturday, July 14 has announced the members of her wedding party. Miss Joyce Fangman of Omaha will be the maid of honor and the bridesmaids will be Miss Marcia Mickelson of Fremont, Miss Catherine Schwerin of Portland, Ore., Miss Karen Smets of Ord, Mrs. Marvin Kessler, and Mrs. Eugene Kelley.

Preceding the ceremony, the candles will be lighted by Mrs. William Hill and Miss Sharon Fangman of Omaha.

A. F. Johnson of Omaha will serve his brother as the best man and the ushers will be George Choiniere of Omaha, Barry Kuhl of Omaha, Jack Johnson of San Antonio, Tex., James Cope of Grand Island, and Keith Leach of Humboldt.

In pre-nuptial courtesy to a July bride-elect, Miss Gail Katske whose marriage to Bernard Wishnow will take place on Sunday, July 29, was the Sunday night supper at the home of Mrs. Charles Sherman. The co-hostesses for the party were Mrs. Norman Krevoshka and Miss

Anita Daniels. Following the supper, the bride-elect was presented with a recipe and pan shower.

Also in honor of Miss Katske was a luncheon at the home of Mrs. Ralph McGoogan on Saturday afternoon, June 23. A gadget shower was presented the soon-to-be-bride.

Miss Vivian Gray has chosen Friday evening, July 20 as the date of her marriage to Stanley Manske. The bride-elect's sister, Mrs. Gene Ritzlaff, will be the matron of honor and the bridesmaids will be Mrs. Stanley Brandt of Martell, sister of the bride-elect, Miss Vicki Bouma of Firth and Miss Phyllis Buel of Hickman. The flower girls will be Georgia Manske, sister of the prospective bridegroom and Marian Brandt, niece of the bride-elect. The candles will be lighted by Lauralie Bouma of Firth and Miss Audrey Evers of Hickman.

Glen Manske will serve his brother as the best man and the guests will be seated by Wayne Manske, brother of the bridegroom-elect, Paul Reiner of Waverly, Donald Magee, Gene Ritzlaff and Richard Wagner.

## We Hear That

On Saturday evening Dr. and Mrs. Wayne Keim and their two children, Kay and David, of West Lafayette, Ind., arrived in Lincoln to spend a week's vacation with Dr. Keim's mother, Mrs. F. D. Keim and Mrs. Keim's parents, Mr. and Mrs. L. F. Neumann.

Mr. and Mrs. Al Berman and their son, Byron Lee, returned home on Sunday after spending several days in Chicago. Mrs. Berman and her son went into Chicago a week ago to meet Mr. Berman who was en route home from a business trip to New York.

Visiting at San Marcus, Tex., is Miss Janet Becker of Exeter who is the guest of her brother-in-law and sister, Lt. and Mrs. Dale Rasmussen, and their small son, Darrel.

## Had Morning Wedding

MRS. ANTHONY STEC

On Wednesday morning, June 27, Miss Delores Davis, daughter of Mr. and Mrs. Alfred Davis, became the bride of Anthony Stec, son of Mr. and Mrs. Antonio Stec, Long Pine, at St. Patrick's Church. Before altar arrangements of gladioli, the Rev. Gaudence Schroeder solemnized the 9 o'clock ceremony and the wedding music was played by Mrs. Robert Studnicka.

The bride's sister, Miss Eleanor Davis, was the maid of honor and only attendant. She wore a princess styled waltz-length frock of aqua crystaletta, and completed her costume with a small cap of aqua lace. She carried a nosegay of white roses.

Following a reception held in the church parlors, the couple left for a wedding trip to Colorado and Wyoming. They will make their home at Rose, on the Charles Martin Ranch.

## Bride Of Lincoln Man

MRS. DONALD CREWDSON

Arrangements of gladioli in pastel tones appointed the chancel of St. John's Lutheran Church in Eustis for the wedding of Miss Janice Gaibler, daughter of Mr. and Mrs. Fred Gaibler, Eustis, and Donald M. Crewdson, son of Mr. and Mrs. Paul Crewdson, Lincoln, which took place on Sunday afternoon, June 24. The Rev. H. F. Meyer solemnized the 3 o'clock ceremony and Miss Janet Berke who played the wedding music also accompanied the vocal soloist, Miss Gloria Meyer.

Shades of blue, deep for the matron of honor, Mrs. Kenny Discoe of Brady, and the pastel shade for the bridesmaids, Miss Sharon Albury, Lincoln, and Miss Yvonne Gaibler, were chosen for the crystaletta princess frocks worn by the attendants. Each carried a colonial bouquet of white carnations. Miss Carol Crewdson and Dennis Gaibler lighted the candles, and the flower girl was Kathleen Crewdson.

Robert Worster served his cousin as best man, and seating the guests were Dewain Crewd-

## SUBURBIA

After visiting with our friends in Country Club Terrace, the most popular song by far this week is "Rain, Rain Go Away." As you may have guessed the week's activities include several back yard picnics to celebrate today's holiday. However, not all of our news this morning is confined to Fourth of July because the summer vacations still are one of the main topics of conversation, and there have been house guests and parties, not to mention the young campers.

Because today is the Fourth of July, we'll begin by telling all about the various activities that have been planned. This evening, Mr. and Mrs. Byron Darlington will be host and hostess at an informal back yard picnic for the families on Kessler Circle. The guests will include, Mr. and Mrs. Don Bryant and their children; Mr. and Mrs. Barclay Bayley and their daughter, and Mr. and Mrs. Anton Kuzelka and their family.

Also planning a back yard covered-dish supper are Mrs. Ray Boehmer and her two children, George and Amy Sue. Mr. Boehmer has left for a three months tour of duty in England. So, the guests at the picnic will include Mrs. Boehmer's friends whose husbands also have to be away on the Fourth. They will be Mrs. Gail Gade and her two children, Jeff and Stevie, and Mrs. Richard Myers and her son, Greg, and Mrs. Jerry Shestak.

One of our Country Club Terrace youngsters, Master Gus Luikart, son of Mr. and Mrs. Gordon Luikart Jr., underwent surgery at Lincoln General Hospital on Tuesday, July 31. His grandmother, Mrs. Gordon Luikart of Sioux City, Ia., arrived in Lincoln on Monday, July 2, to stay with his younger sister, Kathy.

House guests recently at the home of Mr. and Mrs. Ervin Swenson were Mrs. Swenson's brother and sister-in-law A-C

and Mrs. Glen Hathaway who were returning from Wyoming to their home in Savannah, Ga. They were in Lincoln for about two days.

On the Fourth of July agenda for Mr. and Mrs. Vernon Walker and their son, Mike, is dinner at the Hillcrest Country Club this evening. Also included in the dinner festivities are Mr. and Mrs. Ronald Dudley and their three children, Diane, Nancy and Clinton.

Mention of the Walker family reminds us that Mr. and Mrs. Walker's daughter, Tishy, left on Monday, July 2, to spend this week as a camper at Camp Kiwanis. Mr. and Mrs. Walker will bring their daughter home on Sunday, July 8.

Fourth of July plans at the home of Mr. and Mrs. Donald Sween include a family get-together in Ashland for Mr. and Mrs. Sween and their three children, Mary Jean, Terry and Kitty. They will be spending the day with Mr. Sween's parents, Mr. and Mrs. E. A. Sween and Mrs. Sween's parents, Mr. and Mrs. John O'Brien.

And, while we still are on the subject of parties, Mr. and Mrs. Vernon Walker entertained at an informal patio party at their home on Friday evening. The guests included Mr. and Mrs. Fred Lorenz and Mr. and Mrs. John Graf.

On our list of future vacationers are Mrs. Pierre Tisdale and her three children, Ellen, Davie, and Mary who will be leaving on Monday, July 16 for Gulfport, Miss., to visit Mrs. Tisdale's parents, Mr. and Mrs. E. L. Eubank. This will be the first visit that Mr. Eubank has had with his youngest granddaughter, Mary.

Mrs. Tisdale and her children will be returning to Lincoln before school begins in September.

## Install New Officers

At its Monday evening meeting, held at the Capital Hotel, the members of the Lincoln Toastmistress Club installed their new officers for the coming year. The new president is Miss Estelene Porter, and the other members of the official staff include Mrs. Ivan Butler, vice president; Mrs. Chesta Beckwith,

secretary; Miss Edith Lumsden, Toastmistress Club representative and treasurer, Miss Mercedes Ames.

In the picture, left to right: Mrs. Beckwith, Mrs. Byron Stromer, retiring president, presenting gavel to Miss Porter; Mrs. Butler, Miss Lumsden and Miss Ames.

# JULY Clearance!

Use one our convenient payment plans to make your July Sale purchases

### Magee's Layaway Plan

A 20% deposit will hold your purchase until you wish to take out the merchandise. At that time, you may charge the balance to your regular account. Stamps given for prompt payment.

### Magee's YBA Plan

You may charge the merchandise without any down payment. If your purchase is \$60 you will then pay only \$5 each month, plus a service charge of only 1/4 of one per cent of every dollar of each month's outstanding balance. Stamps given for prompt payment.

### Magee's Open Account

Under this plan payment is due in full each month and you will receive Community Savings Stamps if payment is made by the due date.

## Men's Clothing

Save Money for Two Reasons!

- 1 We offer a discount of 20% on hundreds of suits, top coats and sport coats from our regular stock.
- 2 Most clothing will sell for higher prices in the fall because of an increase in industry wages (the first in three years). Your discount is taken from low spring prices.

Anticipate your fall and winter needs now!

# 'Happy' Chandler Forms New Political Powerhouse

## GETS KENTUCKY FAVORITE SON ACCLAMATION

LOUISVILLE, Ky. (AP) — Gov. A. B. Chandler welded together his new political power house in a boilerroom setting Tuesday—and capped it with noisy acclamation as Kentucky's favorite son hope for president.

The Democratic State Convention, sweltering in the heat of the big Jefferson County Armory, put the key men of Chandler's administration into key spots of a completely reorganized party organization.

It left nothing for the outgoing rulers—Sen. Earle C. Clements and former Gov. Lawrence W. Wetherby.

Chandler ended the meeting on a high note of harmony, however, by calling for the re-election of Clements and the election of Wetherby to the Senate seat of the late Alben W. Barkley.

**Harmony**  
With Chandler forces in control from the outset, the convention was one of harmony throughout except when Chandler delegations from four legislative districts of Jefferson County (Louisville) were seated over those of the Clements-Wetherby faction.

When this action was announced late in the day, delegates from all 11 Jefferson districts favoring the old regime walked out.

Chandler himself was chosen as national committeeman, chairman of the state's delegation to the national convention, permanent chairman of the state convention, and then, amid loud yells and applause, the favorite son.

In the latter role, he will go to Chicago Aug. 13 with Kentucky's 30 delegate votes pledged to him "so long as his name remains before the convention."

Chandler closed the convention with a solemn declaration to "use all of our means" if there is a deadlock on other candidates to procure the nomination for himself. The remnants of the Clements-Wetherby party rulership lost out when the convention seated four Chandler followers from Jefferson County on the Democratic State Central Executive Committee.

Jefferson County had provided the bulk of uncontested delegates representing the losing faction, but their walkout cost them their organization and Chandler friends were substituted. This gave Chandler complete representation on the 40-member committee, which governs party affairs in the state. Chandler's speech was keyed to the theme that Kentucky's divided Democrats should stop fighting and go after "the common enemy"—the Republicans.

**Good Wishes**  
BONN (AP) — West German President Theodor Heuss wired President Eisenhower his good wishes for American Independence Day.

### Beatrice Park Flooded

Flood waters pour over the road entrance to Chautauqua Park after heavy rains hit the Beatrice area two days in a row.

The water overflowed into the south side park from the Blue River. The girls wading are

Benita Hanke, left, and Jean Rathbun, both of Beatrice. (AP Wirephoto).

## Residents Evacuated At Minatare, Bayard

... Crop Damage Might Hit \$1,000,000

Lincoln Star Special

SCOTTSBLUFF, Neb.—About 50 persons were evacuated from the western outskirts of Bayard and 15 to 20 homes were evacuated in lowlands north of Minatare as drainage ditches, swollen by heavy rains, overflowed their banks.

Estimates of crop damage from rain, hail and wind in the Scottsbluff area went as high as one million dollars.

The Platte River was jumping its banks only in spots. Most of the flooding comes from drainage ditches in this rich irrigated area.

Some basements were flooded in Minatare and Bayard, an area hit heavily by hail late Monday. Piling up as high as small grain and beans a total loss in a strip 3 to 4 miles wide and 10 miles long between Minatare and Bayard.

Damage to sugar beets and corn in the area was extremely heavy. The Great Western Sugar Company reported 5,000 acres of beets were heavily damaged.

**Fields Flattened**

Several wheat fields were flattened by rains ranging from 1 to 6 inches along the Platte River from the Colorado border to Bridgeport, in central Morrill County.

The Bayard airport, just south of town, was inundated and a bridge across the drainage ditch in northwest Bayard was washed out. Only the tops of fence posts surrounding the airport could be seen Tuesday afternoon.

**Debris Moved**

A dragline operator who kept debris from the ditch, allowing a free movement of the torrents of water, was credited with keeping the situation from worsening.

The rain drained into a low-lying area along the road connecting Minatare with Highway 26 and four to five feet of water was reported covering the road at one time Monday night.

Railroad track washouts between Bayard and Northport (Bridgeport's "twin city") on the north bank of the Platte halted service on the Alliance-to-Casper line, the

## SE, Western Farm Outlook Much Better

Farmers in southeastern and extreme western Nebraska whose crops escaped damage from the current severe thunderstorms are finding the general outlook for late crops much better.

Western Nebraskans who rely on irrigation ditches along the Platte River for moisture for their sugar beets, beans, wheat and corn no longer wonder whether irrigation water will hold out.

Outside of a 10-mile-long strip in Scotts Bluff and Morrill Counties, where hail and rain brought perhaps a million dollars worth of damage to crops, farmers in the area are optimistic about the crop situation now.

The showers halted the wheat harvest which was well underway in the southern part of the state and rapidly moving north.

Flooding of creeks and rivers in southeast Nebraska in the lowlands of northeast Gage County, where about 40 per cent of the crop remains to be harvested.

(The weekly crop report issued Tuesday by the State-Federal Division of Agricultural Statistics is on Page 9.)

### Ogle Infant Dies

Paul Ogle, infant son of Mr. and Mrs. Don Ogle of 2145 South St., died Monday.

He is also survived by his grandparents, Mr. and Mrs. Joseph Hakenkamp of Lincoln and Mr. and Mrs. Don L. Ogle of Humboldt.

## Car Crash On Highway 2-34 Kills Lincolnite

Mrs. Anna K. Martens, 38, of 1320 So. 15th was killed Tuesday morning when the car she was driving apparently missed a curve and rolled from Highway 2-34 northwest of Lincoln.

State Troopers said the mishap, which occurred just west of the junction with old Highway 79, was discovered about 4:30 a.m. by a passing motorist.

Mrs. Martens, who was thrown from the car, apparently died instantly from a broken neck, according to Deputy Sheriff Bill Johnson, acting coroner.

Her husband, Henry A. Martens, lives at Thayer. He is employed there and she was employed at a Lincoln drug store.

## 'Phony' Deputy In Assault Complaint Found By Sheriff

One of the two "phony" deputy sheriffs who forced a 24-year-old Lincoln woman into their car last June 22 has been identified by the Lancaster County Sheriff's office.

The 24-year-old Lincoln man, who is married, was released subject to call by the County Attorney's office after giving a statement about the incident.

The Sheriff's office said the man admitted identifying himself as a "deputy," but denied assaulting the woman, as she had alleged, when she was taken to a schoolhouse yard near Raymond.

The second man, who has been tentatively identified, is still being sought, the Sheriff's office said.

## Lincoln Woman Files \$27,350 Damage Suit

Mrs. Adella Porter of 1720 M has filed a \$27,350 accident suit in Lancaster District Court against two Mullen residents, Sandra C. Sillesen and Iva Maloney Harding.

Mrs. Porter alleges she was injured May 30, 1956, in a two-car collision at 9th and South.

She was riding in a car driven by her husband, George H. Porter, which was allegedly in collision with the defendant's car and driven by Sandra Sillesen.

In addition to \$25,000 for personal injuries, Mrs. Porter seeks \$2,350 for property damage and medical expenses as her husband's assignee.

### Fashion-Fabric Clearance

Take Your Pick for Summer into Fall Sewing!

**Selection of Miracle-Type Fabrics** ... 66c yard

Excellent for late summer dresses or suits, or for jumpers and dresses for back-to-school! This group includes miracle fiber blends with rayon, cotton ... in suitings, prints, "pongees" ... and some crease-resistant, no-iron cottons. Originally 1.19 to 1.39.

### Three Select Groups for Big Savings!

Suitings and better cottons, originally 59c to 89c.

2 yards \$1

Denims, broadcloths and gingham, originally 49c to 69c.

3 yards \$1

Chambrays, broadcloths, percales and rayons, originally 39c to 59c.

4 yards \$1

Here's a Jumble of Choice Bargains!

**Better Rayons and Cottons 98c yd.**

Woven plaids, nubby silk and rayon blends, novelty and printed terry cloth and gold printed cottons. 36 to 45 inch widths. Originally 1.19 to 1.39.

**For Easy Sewing, Easy Care Pleated Cottons**

Pleated cottons in plain or print patterns. These permanent pleats don't sit out, don't wash out, are always crisp and sharp. So easy to sew, too, you just buy your waist measure, apply a waist band and placket and you have a smart skirt. Or use matching unpleated fabrics for a dress bodice and use the pleats for a quick skirt! No hemming needed. When you wash it, just dry and don't bother with the iron.

Pleated fabric, originally 19c an inch

15c an inch

Matching unpleated prints ...

# Adams Appeal In Will Case Thrown Out

Lancaster District Judge Paul White has quashed the appeal of Thomas H. Adams, a Lincoln attorney and state senator, in the Joseph F. Krenk will case.

In annulling the appeal, Judge White ruled that Adams had "no capacity to appeal" from the Lancaster County Court order of Nov. 19, 1955, which held probate of the Krenk will was "obtained by a fraud upon this court."

The Krenk will included the signatures of Adams and Glendora Heuser, his former office secretary, as witnesses. Court records showed the will had been admitted to probate in 1953 on the attestation of Adams before Judge Roan.

Attorney Russell Mattson, who represented Krenk's widow in the District Court appeal matter, contended that Adams was only a witness to the will, had no legal interest in the estate and thus no right of appeal.

In County Court, Judge Roan had upheld a petition by Mrs. Ellen E. Krenk, that her husband's will be admitted to probate Nov. 27, 1953. Was not a true will, and set aside its first page in favor of another first page which was disclosed to the court last December.

Adams was also required to pay \$2,343.58 into the County Court's hands as representing funds paid to him by the estate's executor.

Under the will as originally probated, Mrs. Krenk was to receive the entire estate, except for bequests of \$530.

But, under the will as admitted for probate last December, Mrs. Krenk is to receive only a life interest with the estate's remainder going to a son, Ernest.

# Ida Staton Death Is Ruled 'Natural'

The death of Ida E. Staton, 73 of 436 So. 49th, was determined Tuesday as from "natural causes," according to Lancaster County Attorney Elmer Scheele.

Scheele said an autopsy was performed Tuesday afternoon. A heart attack was determined to be the cause of death.

The woman's body was found Monday night lying face down on a bed in her home. Police broke into her house after neighbors reported she hadn't been seen since Friday.

She had been on old age assistance since March, but was formerly employed as a housekeeper at Lincoln General Hospital.

She was a graduate of Columbia University.

Surviving is a nephew, Richard E. Waarden of Houston, Tex.

# Arrest Of Boys Solves Car Thefts

OMAHA (U-P)—Omaha police said Tuesday night a series of car thefts during the past six weeks here had been solved with the arrest of six ten-age boys.

Police identified them as Wesley Parker, 14; Dennis Webster, 15; John Rhoads, 15; and Kenneth Newman, 14, all arrested at Deadwood, S. D., Saturday in a car said stolen, and Russell Ellis, 14, and Robert Humphrey, 15, arrested here earlier.

Detective Sgt. Harvey Sautter said the youths admitted the thefts for joyrides and to stripping several cars of accessories, tires and batteries.

All were charged with auto theft and turned over to juvenile authorities.

# Arson Charges Face Lee Helms

OMAHA (U-P)—A second degree arson charge was filed against a man police said had admitted starting a \$100,000 fire at an insulation company June 24.

Lee Helms Jr., 31, Omaha, waived preliminary hearing and was taken to Douglas County Jail to await arraignment in District Court.

Police said Helms admitted he used gasoline and a cigarette to ignite a fire that destroyed the company plant. Helms employed by the firm, was quoted by officers as saying he was angry because he thought insurance had been made about his work.

# LeMay Will Watch Fremont's Parade

FREMONT, Neb. (U-P)—Gen. Curtis LeMay, Strategic Air Command chief, is scheduled to attend the Military Day observances here July 26 in connection with the Fremont Centennial.

LeMay will be introduced at the reviewing stand of the Military Day parade.

Three military bands are scheduled to march in the parade. They are from Great Lakes Naval Training Station, Offutt Air Force Base and the Lincoln National Guard.

# Wilson To National Convention Of IGA

S. A. Wilson, executive vice president of Grainger Brothers Company of Lincoln, will attend the National IGA convention beginning July 16 in New York.

The Rev. Billy Graham, internationally famed evangelist, will give the keynote address at the opening session.

It is expected that Vice President Richard M. Nixon will give the principal address at the main banquet, according to Don R. Grimes, president of IGA. More than 4,000 retailers and wholesalers are expected to attend the convention.

Cow Helps Him Out:

# Flood Trees County Farmer Overnight

By DEL HARDING  
Star Staff Writer

The tail of a cow he "wanted to get even with anyhow" Tuesday provided farmer Marinus Knudsen an escape from rampaging flood waters on his farm four miles south of the State Penitentiary on U.S. 77.

Knudsen, 64, had gone to check his stock about 11:30 Monday night. Salt Creek, which cuts through his farm, had been overflowing for several hours. The waters had risen higher than he expected, and before he realized it, Knudsen was in swiftly-flowing,

muddy water up to his neck. Rather than risk being swept away, he climbed a tree and decided to wait until morning. He removed his boots every so often and massaged his cold feet.

His wife had dozed off on a couch at the farmhouse. She awoke

about 12:30 a.m. Tuesday and realized her husband should have been back from his cattle-checking. "I was worried to death . . . I could just see him going down the stream," she said. She opened the door only to see with alarm that the flood waters were within 15 feet of the house. After unsuccessfully trying to telephone a neighbor, she decided to await until morning and seek help.

She waited a few hours then telephoned Emil Erlich, who farms about 1 1/2 miles northeast of the Knudsens. He came over and, standing on a piece of high ground, called to Knudsen, who answered him.

Erlich began calling to the cattle which reluctantly began to make their way towards the house. Knudsen waited until he saw his "orneriest" heifer and grabbed onto her tail.

Knudsen said the cow went under the water several times but popped up again. He estimated the tree in which he spent the night was a quarter-mile from his farmhouse.

Knudsen said he "wasn't scared," and knew if he kept his head he would be all right. His wife wasn't so confident. "I thought he was drowned for sure!" she said.

Most of Knudsen's 172-acre farm was inundated, but he appeared in good spirits. "It doesn't hurt the crops . . . good irrigation," he commented.

KNUDSEN . . . relaxing after "cow-tail" rescue. (Star Staff Photo).

## Inflamed Eyes?

# TOGETHERNESS

## JULY 4th 1956

Here at Gold's, a store that began with a family of only nine co-workers in 1902, there has always been the spirit of Togetherness, that wonderful word for work and responsibilities, for happiness and sorrows mutually shared.

Today, our great organization of over a thousand happy co-workers understands Togetherness and believes in it. Always a great family, we of Gold's have worked, played, and prayed together as an understanding, affectionate unit.

Here in Lincoln, Togetherness means thousands of happy families, most of us in our own homes, living and thriving in a friendly, understanding atmosphere, meeting and solving our problems with that same cordial comradeship and neighborliness.

In Nebraska and throughout the Nation, together we guard our country and our way of life. Togetherness is the trend toward closer family relationships that is the hope of our time. Never have there been so many families, so many children in families, so many self-owned homes.

On July 4, 1776, the Declaration of Independence was adopted by the Continental Congress in Philadelphia. Now, one-hundred and eighty years later, it remains man's greatest heritage. It is the landmark of our freedom, our rights, and our obligations. By the gracious goodness of the Almighty, may our Togetherness ever preserve it.

(Togetherness is a word practically invented by McCall's, the great family magazine, and adopted by Gold's of Nebraska, the great family store.)
